## Life Anew

To create a culture of comfortable, healthy living.

Since our founding, we have continuously pursued innovations that offer greater wellness and comfort to daily life.

Honoring the trust that our customers and society place in us TOTO remains dedicated to delivering products that offer inclusive functionality and respect for the environment.

We embrace these values every day to create a future that surpasses all expectations.

To ensure we secure and retain the trust of customers and society as a whole, we have formulated a mission with three key elements.

We will implement our Global Environmental Vision to support the mission.

### Water, Earth & a better Tomorrow

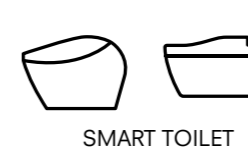

At TOTO, we're committed to improving life and the environment for a thriving future. Our production processes and products save water and energy, while reducing impact on the environment. We provide cleanliness and comfort while building relationships that enrich life. **Water, Earth & a better Tomorrow** All our group companies are dedicated to building a healthier and more sustainable tomorrow.

**Global Themes**  
 Cleanliness and Comfort  
 Environment  
 Relationships  
 Conserve Water, Prevent Global Warming, Our Global Society

## Always Innovating to Spread a Culture of Everyday Comfort and Cleanliness.

Since its launch in the 1980s, WASHLET has continually evolved through the invention of countless innovative clean technologies. This is also our history of creating — and spreading around the world — a new culture of comfort and cleanliness through the shift from only wiping with toilet paper to cleansing with water. TOTO will continue pursuing technological innovation and design development to make the lives of people everywhere fresher and richer.

# Understated Presence

**Our wish is to provide,  
as an integral part of everyday life,  
enrichment to every person.  
Our goal is to design products  
with integrity and longevity,  
to which people form an attachment over time.**

**Weaving together spaces that are beautiful and comfortable,  
and experiences that are pleasant.**

**This is the TOTO design.**

The three elements that bring the TOTO Design Philosophy to life.

## Design Elements

### Gentle to people

- A part of everyday life
- Offers peace of mind
- Gentle to the human body

### Comfortable

- Harmonizes with space
- Pleasant interface between people and objects
- Beautiful appliance

### Sincere on Beauty

- Users find it pleasurable
- Retains beauty over time
- Creating a sustainable future

# DESIGN AWARD

An internationally renowned design award since 1953. It is held at iF International Forum Design GmbH in Hannover, Germany. Products whose aesthetics, functionality, and innovativeness have been strictly examined and recognized by design experts.

## ICON GUIDE

### TOILET & LAVATORY

- ACTILIGHT**  Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.
- EWATER+**  Mists the wand, toilet bowl and the underneath of the seat with electrolyzed water, keeping them clean to reduce the need for harsh chemicals.
- CEFIONTECT**  Ultra-smooth ceramic glaze leaves nowhere for waste to cling.
- PREMIST**  A film of water keeps waste from clinging onto the toilet bowl.
- TORNADO FLUSH**  360° cleaning power reaches every spot using less water.
- RIMLESS**  The RIMLESS design not only leaves no place for waste and germs to hide, it's also much easier to clean.
- AIR-IN WONDER-WAVE**  The precise, pleasant, air rich stream keeps you clean. And it's always pleasantly warm.
- LINEARCERAM**  Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

### COMFORT TECHNOLOGY

- AUTO FUNCTIONS**  Product featuring integrated and automated sensor-activated functions.
- HEATED SEAT**  The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.
- DEODORIZER**  Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.
- WARM AIR DRYING**  The individually adjustable dryer follows the warm water spray to ensure a dry, clean overall feeling.

### FAUCET

- SOFT FLOW**  Elegant streams of water gently touch skin. A premium calming experience. Soft and soothing.

### BATH TUB

- ZERO DIMENSION**  ZERO DIMENSION bathing offers freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.
- HYDROHANDS**  Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

## DESIGN AWARDS

The Red Dot is an award for high-quality design an international jury only awards this sought-after seal of quality to products that feature outstanding design

The iF DESIGN AWARD has long been a symbol of excellent form and aesthetic quality, as well as user-focused, ergonomic and efficient design in all disciplines among companies around the world

Visionary technology.  
Exquisitely designed for  
comfort and well-being.

Born of science and our belief  
in everyday wellness to  
rejuvenate body and mind.

NEOREST®.  
The only one.  
A new form of pure luxury brought to life.

# CLEAN TECHNOLOGY

Ensuring lasting cleanliness  
for your peace of mind

# ACTILIGHT

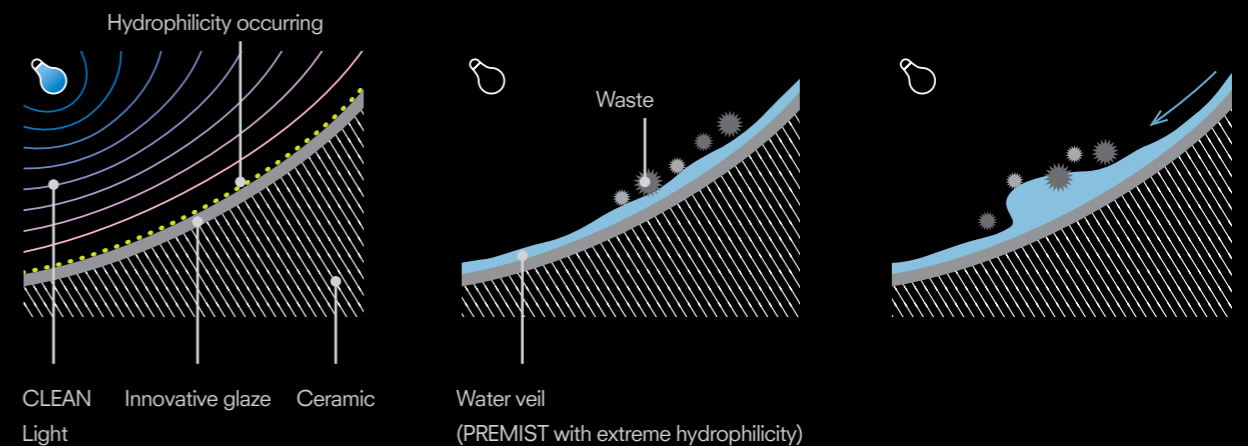

Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.

CLEAN Light and the extraordinary surface treatment enable easy removal of even microscopic debris and particles.

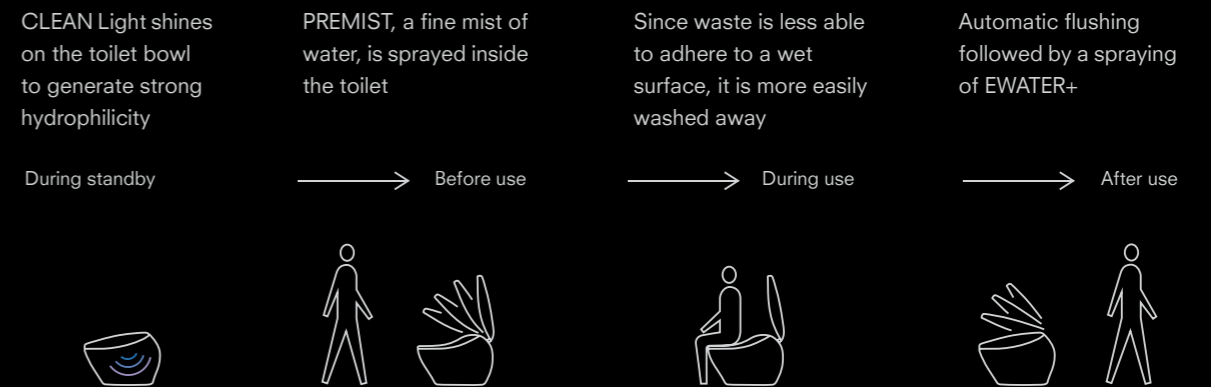

### State-of-the-art materials

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to attract water to the surface and keep the surface clean after use.

### Operates 24 hours a day to maintain clean conditions

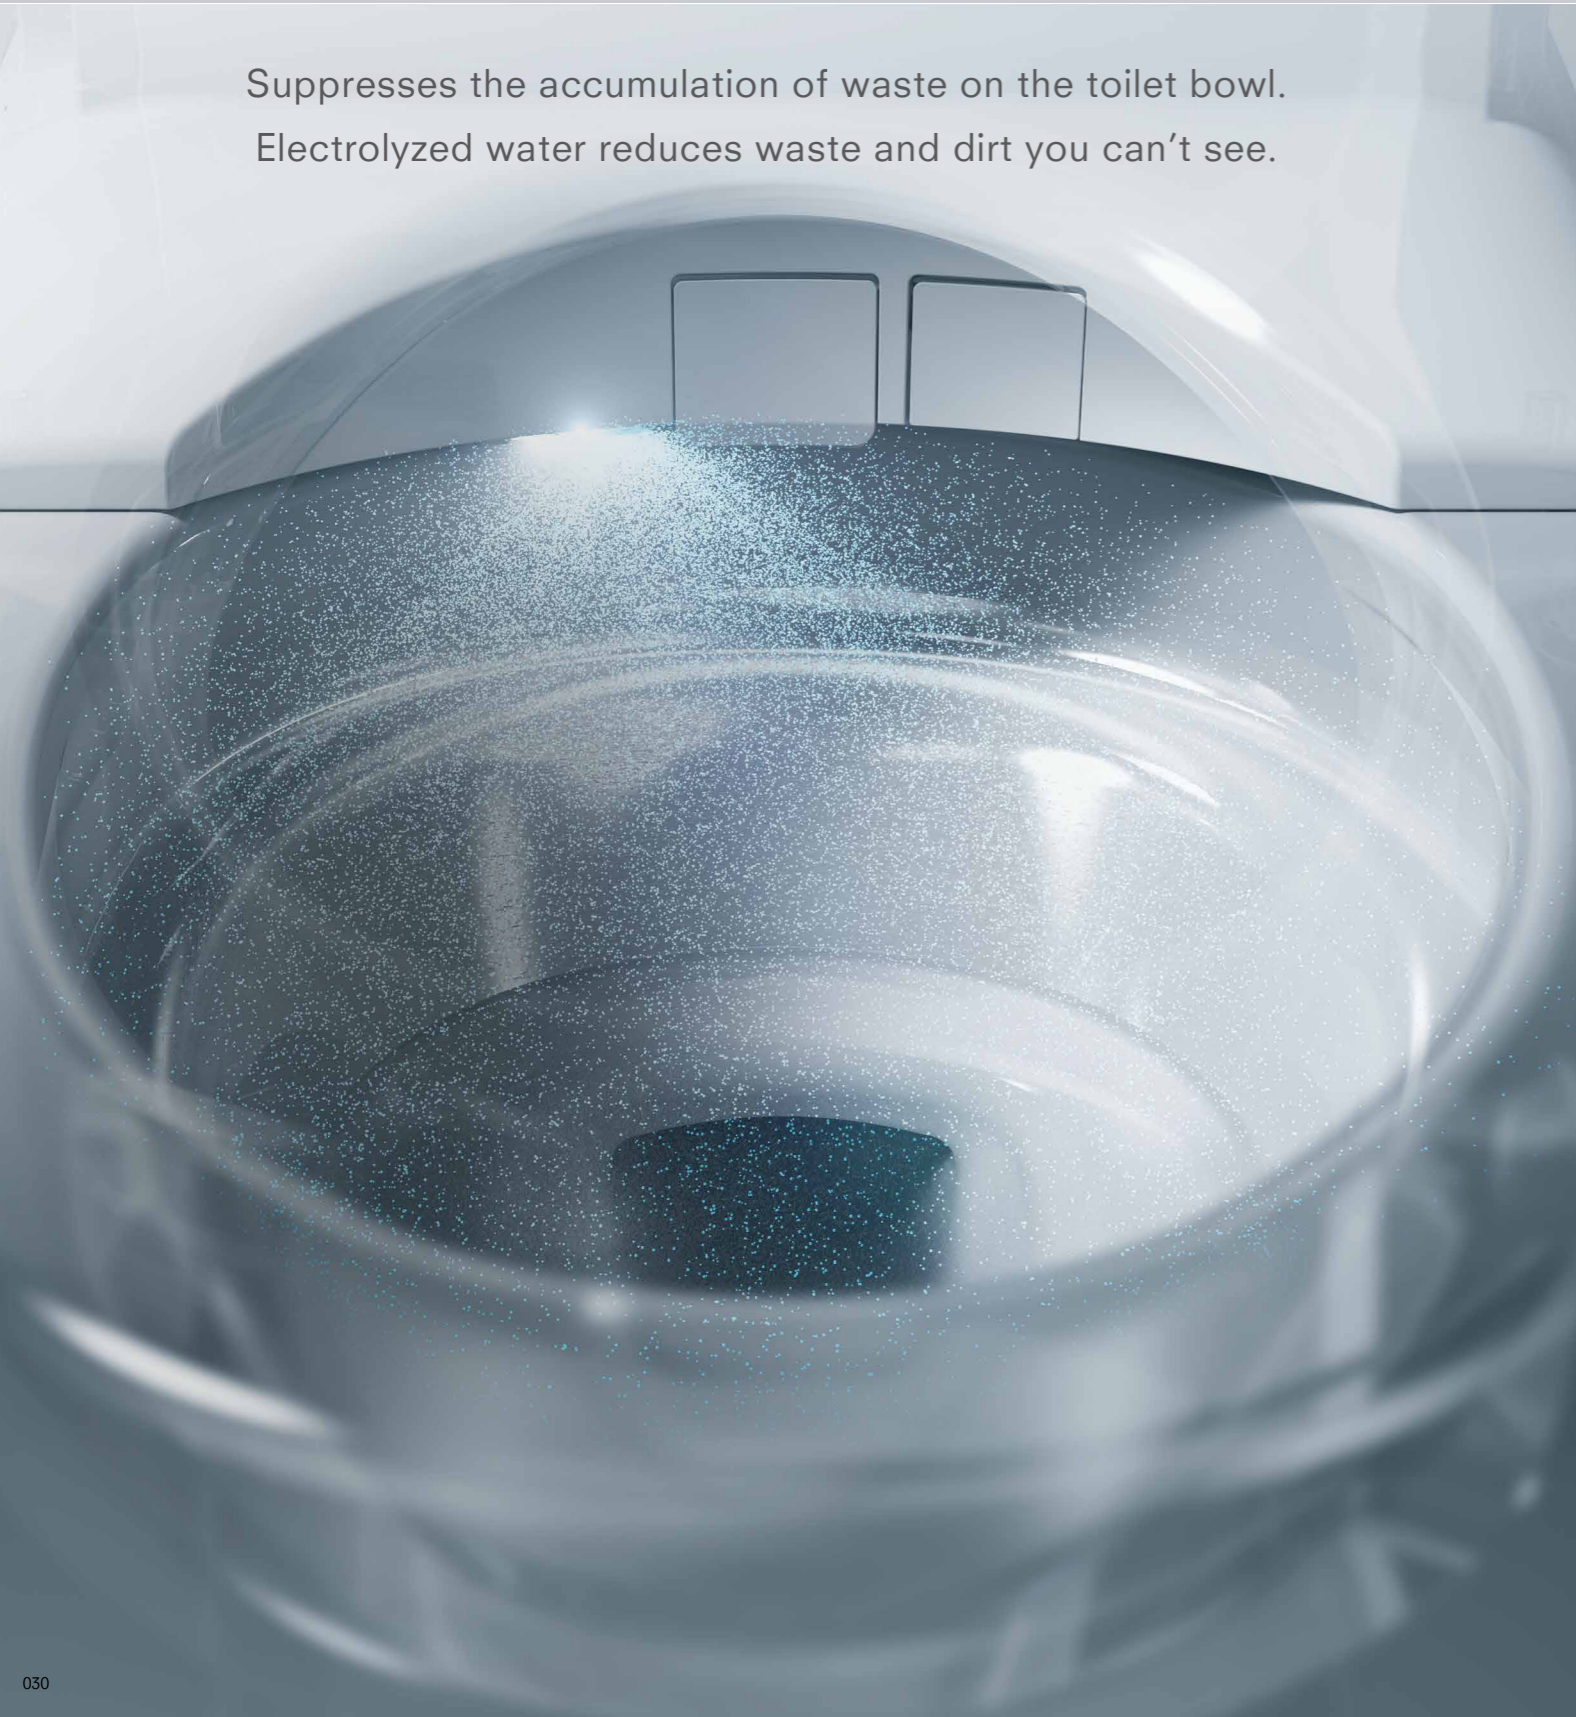

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to make it easy to wash waste away and keep the toilet bowl surface clean.

# CLEAN SYNERGY

## EWATER+ for BOWL

Suppresses the accumulation of waste on the toilet bowl.  
Electrolyzed water reduces waste and dirt you can't see.

### EWATER+

WASHES THE TOILET BOWL, WHERE WASTE TENDS TO ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ leaves microscopic waste no place to hide and provides everyday peace of mind.

### How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Before use

Since waste is less able to adhere to a wet surface, it is more easily washed away

During use

EWATER+ is applied to wash the wand and toilet bowl and remove waste

After use

EWATER+ automatically sprayed 8 hours after the last use

During standby

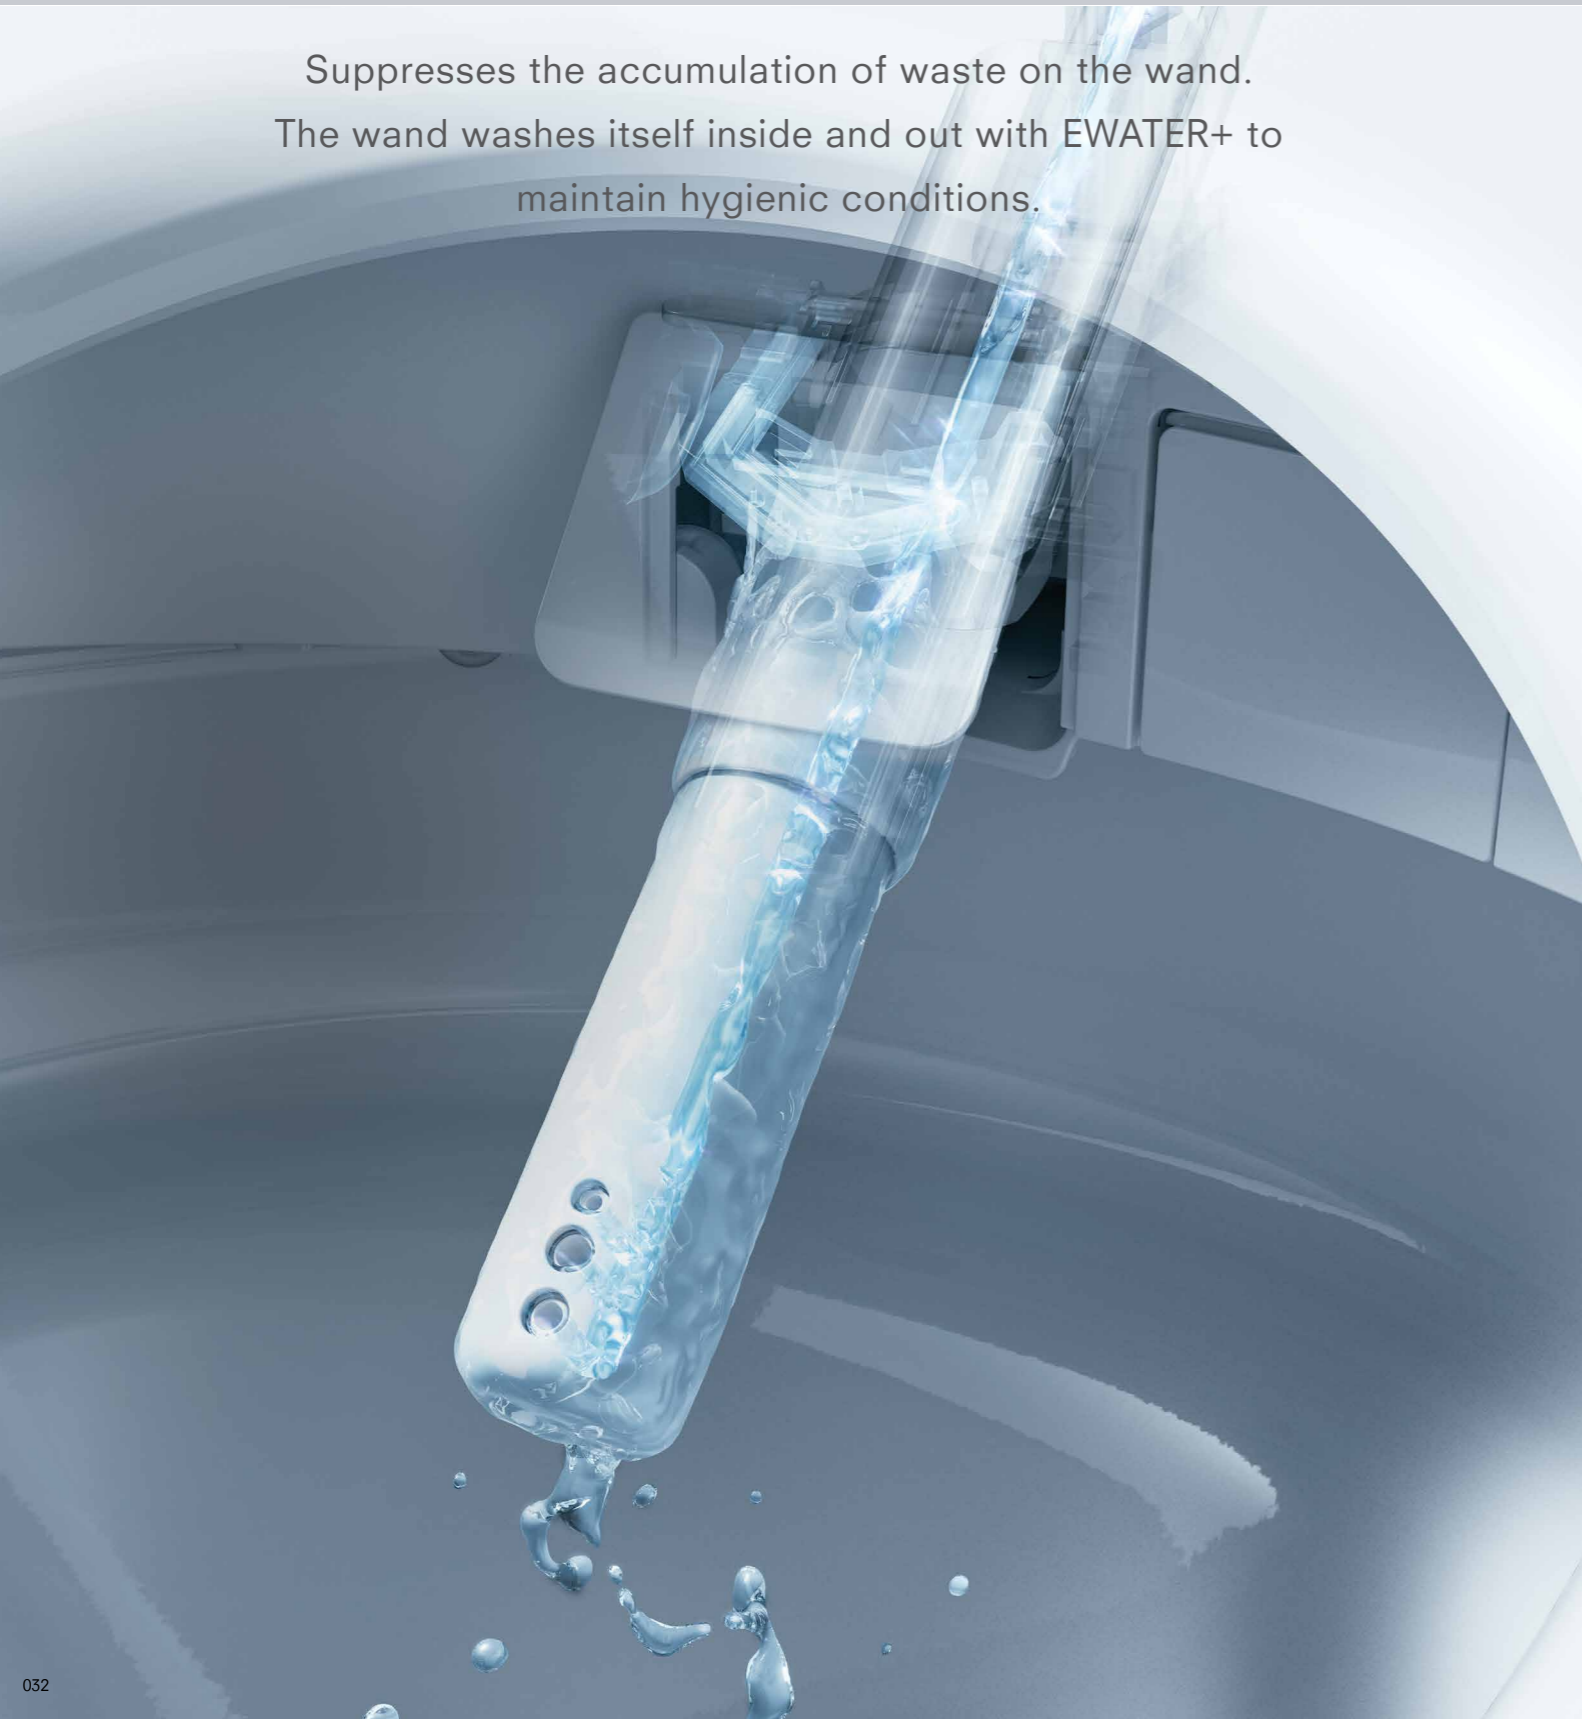

Generated from tap water 	Uses no detergents or chemicals  NO CHEMICALS	Reverts to normal water with time 
--	--	---

### CLEAN SYNERGY

## EWATER+ for WAND

Suppresses the accumulation of waste on the wand.  
The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

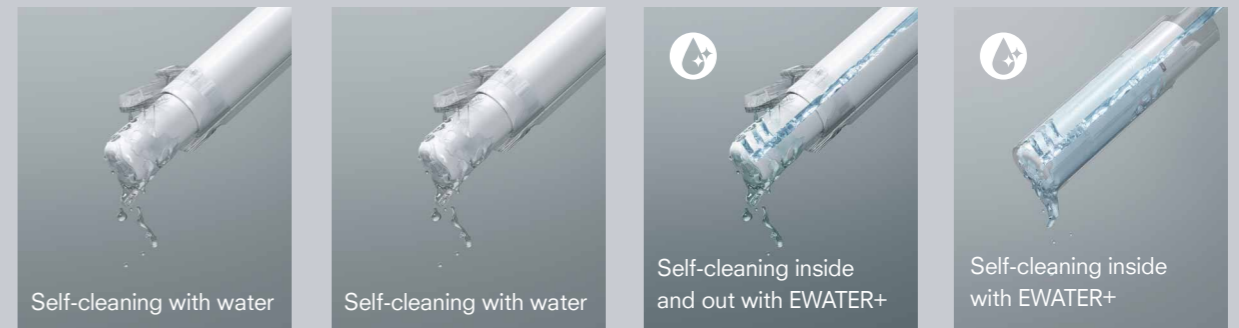

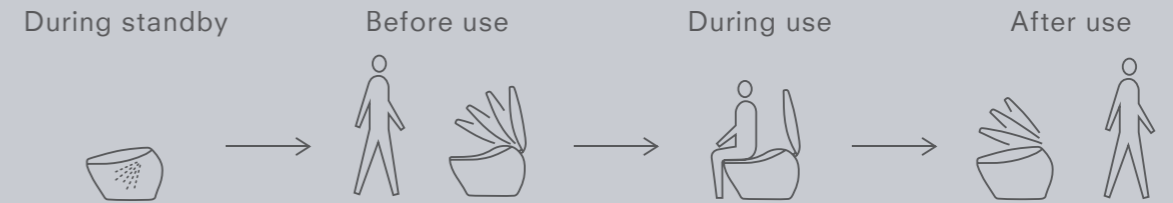

### EWATER+

AFTER EACH USE,  
THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior.  
Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

### Self-Cleaning Mechanism

### Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self cleaning, you will appreciate how easily you can reach it and wipe it spotless.

### CLEAN SYNERGY

## EWATER+ for UNDER SEAT

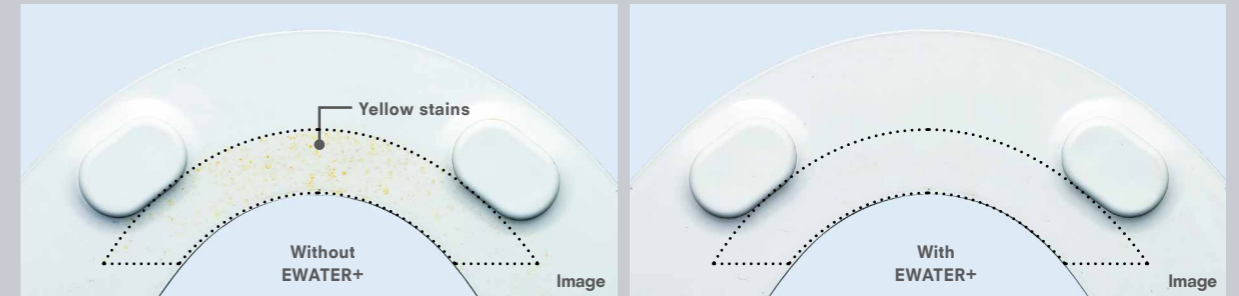

EWATER+ suppresses hard-to-see waste underneath the toilet seat.

### EWATER+

EWATER+ IS SPRAYED ON THE EASILY FOULED FRONT SECTION OF THE BACKSIDE OF THE TOILET SEAT.

This helps suppress urine and other waste from becoming yellow stains, for long-lasting cleanliness. A quick manual spray before cleaning allows you to remove waste with a light wipe.

Survey: Evaluation of waste on the front section of the backside of the toilet seat with and without use of EWATER+  
Usage conditions: A number of uses equivalent to usage for two weeks by a family of four (without cleaning)  
\*Results vary according to usage and environmental conditions. All data collected by TOTO. The dotted lines in the figure show the area over with EWATER+ is sprayed.

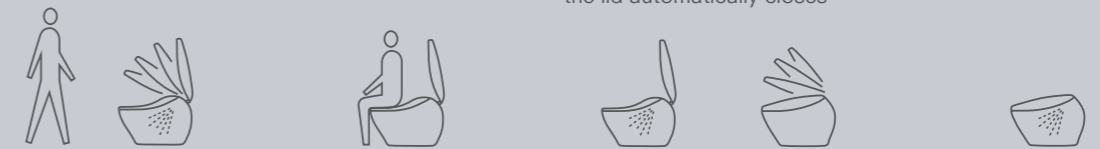

### How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

After you step away from the toilet, EWATER+ is sprayed in the toilet bowl and underneath the toilet seat, after which the lid automatically closes

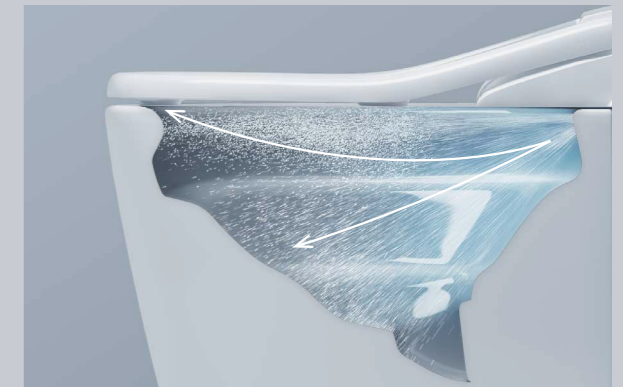

EWATER+ is automatically sprayed 8 hours after the last use

Before use → During use → After use → During standby

### EWATER+ reaches underneath the toilet seat.

EWATER+ is sprayed throughout the toilet bowl, with large droplets covering the bowl surface and small droplets carried by air currents reaching the front section of the backside of the toilet seat

### CLEAN SYNERGY

## CEFIONTECT

## PREMIST

Forces waste to slide down.

Prevents waste from clinging.

Ultra-smooth ceramic leaves nowhere for waste to cling.

A film of water keeps waste from clinging onto the toilet bowl.

## CEFIONTECT

IS AN ULTRA SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

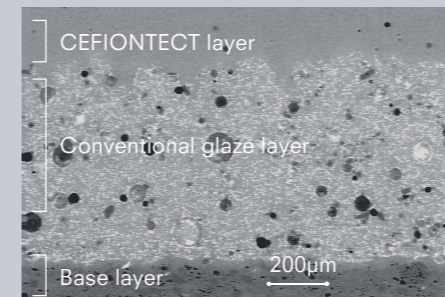

### Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eye, but it has gaps where waste particles can hide. At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

### What makes CEFIONTECT so durable?

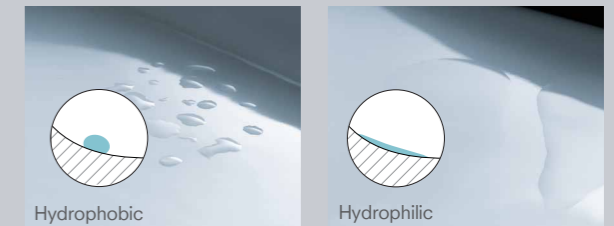

A glass layer is burned over the conventional glaze layer, making CEFIONTECT an extremely durable material.

CEFIONTECT toilet micrograph \*1Qm=0.001mm

### Water has a strong affinity to CEFIONTECT

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

## PREMIST

To ensure waste washes away easily, a film of water keeps waste from clinging onto the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

### CLEAN SYNERGY

## TORNADO FLUSH

## RIMLESS

Swirls and ejects waste entirely  
360° cleaning power reaches every spot using less water.

## TORNADO FLUSH

NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste can easily accumulate

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily to wash the entire bowl clean. The exquisitely-designed, high-quality ceramic bowl makes this innovative design possible.

## RIMLESS

The RIMLESS design not only leaves no place for waste to hide, it also makes it much easier to clean the toilet.

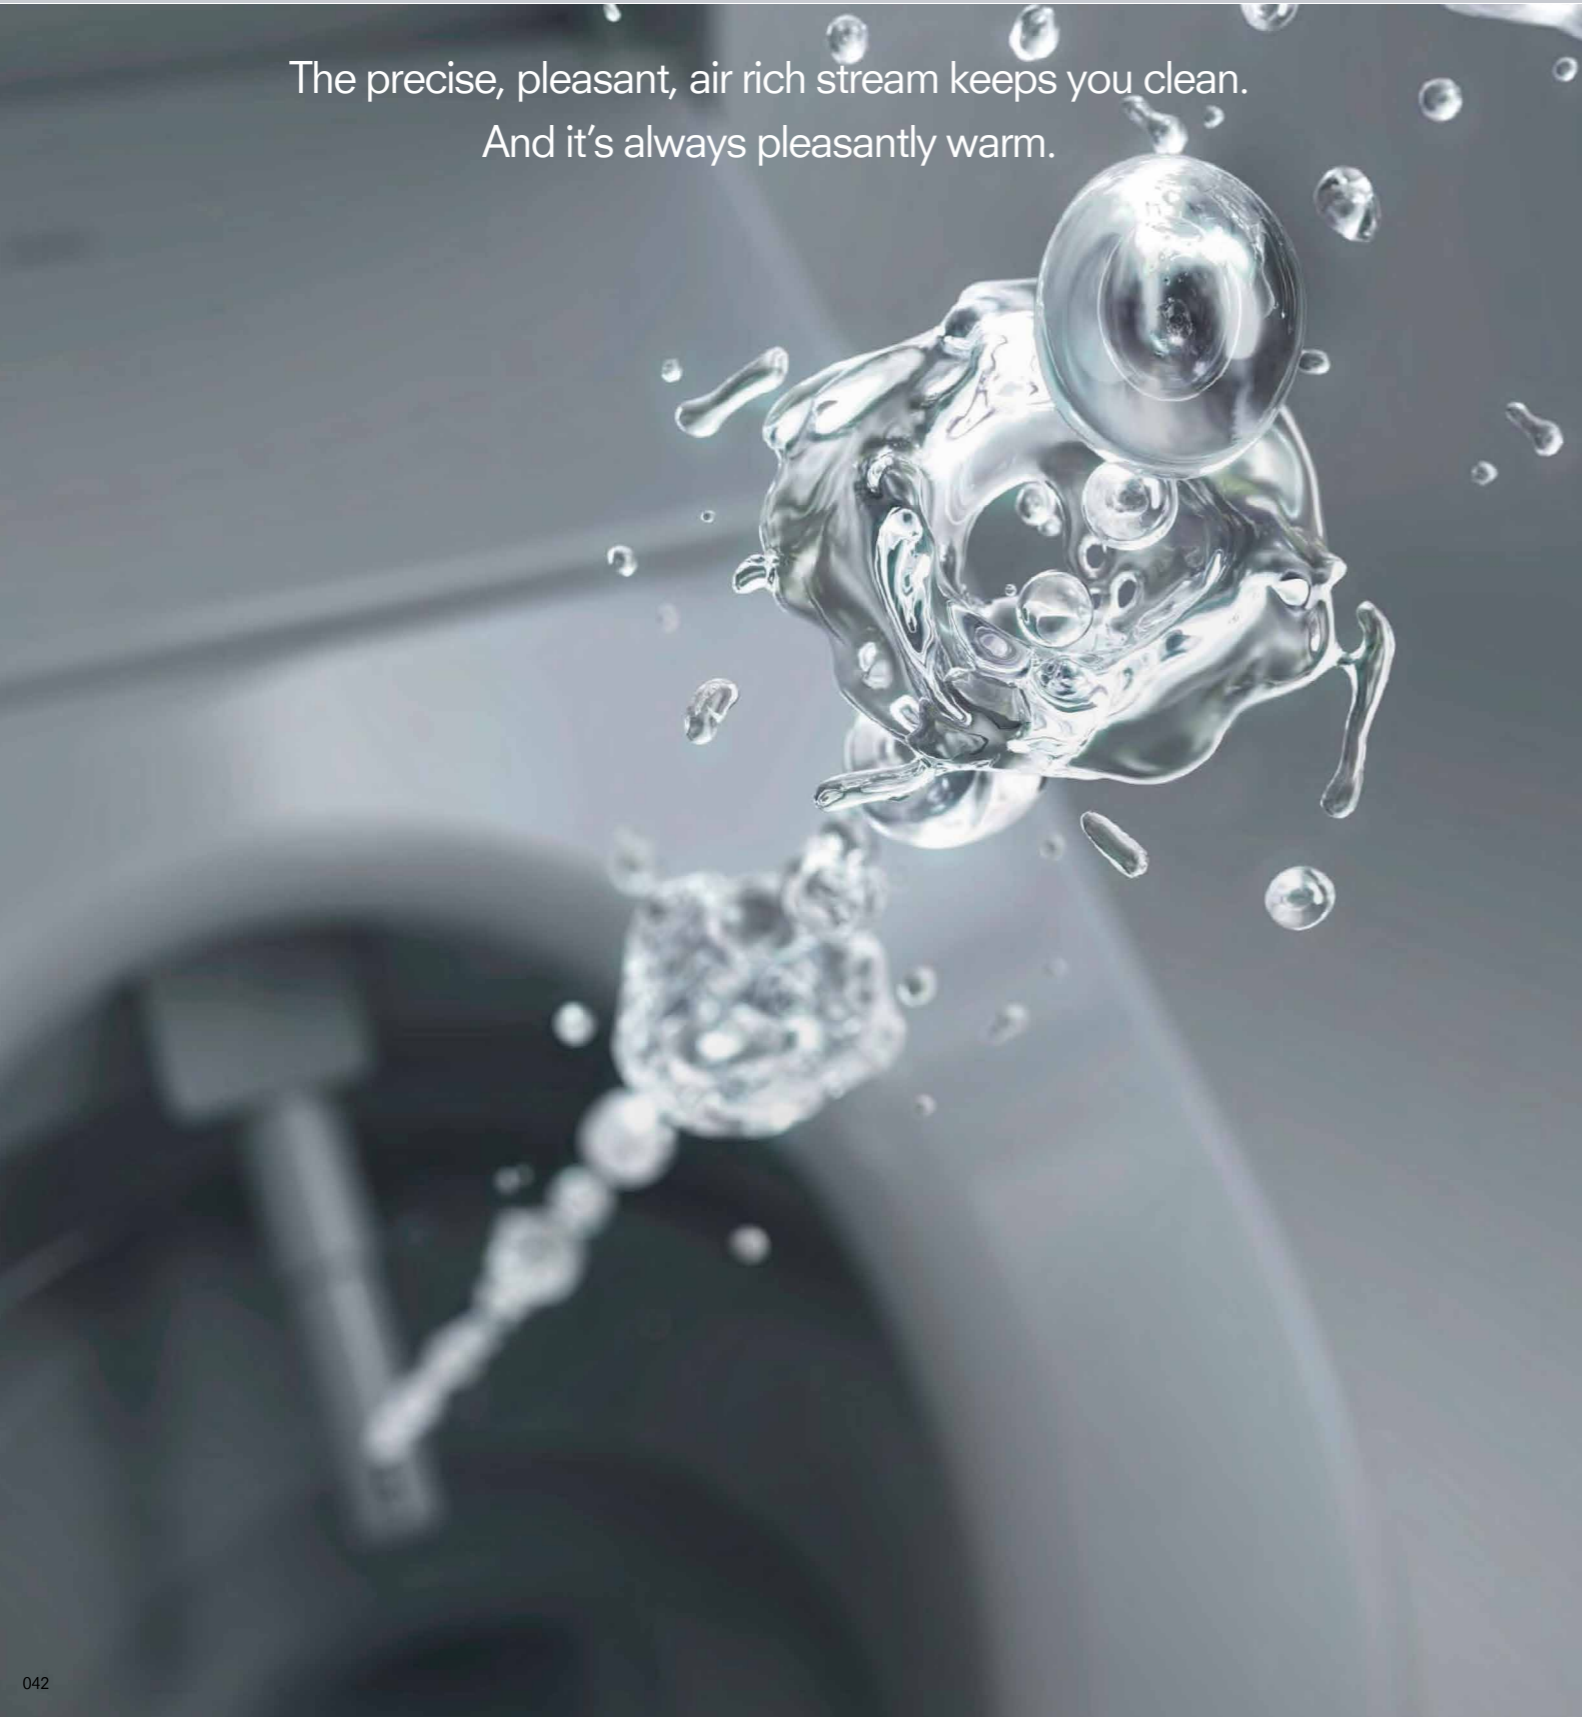

# CLEANSING TECHNOLOGY

Supporting your health and wellness  
with a new type of clean

# AIR-IN WONDER-WAVE

The precise, pleasant, air rich stream keeps you clean.  
And it's always pleasantly warm.

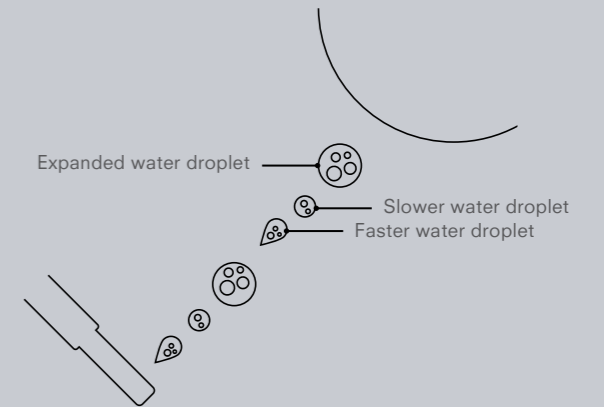

## AIR-IN WONDER-WAVE

AIR RICH WATER DROPLETS TO PRODUCE A MORE COMFORTABLE WASHING SENSATION AND DELIVER MORE THOROUGH CLEANSING WITH LESS WATER CONSUMPTION.

Even more, water is warmed instantly as needed, so you need never worry about running out of warm water.

### How AIR-IN WONDER-WAVE works

AIR-IN WONDER-WAVE technology is a precise and pleasant air-rich stream that keeps you clean. As water droplets are fired at different speeds, small droplets collide with larger ones, combining and expanding as they fill with more air. The injection of air enlarges the water droplets by approximately 30%

Select the type of cleansing you desire.

NEOREST® NX2, NX1, LE, AH and RH Remote Control

#### REAR CLEANSING

Large air-filled water droplets provide a comfortable sensation and complete cleansing with minimal water use.

#### SOFT REAR CLEANSING

Plentiful showers of water provide a gentle sensation and complete cleansing over a wide area.

#### FRONT CLEANSING

A gentle dispersion of large water droplets ensures intimate cleansing in the most comforting way.

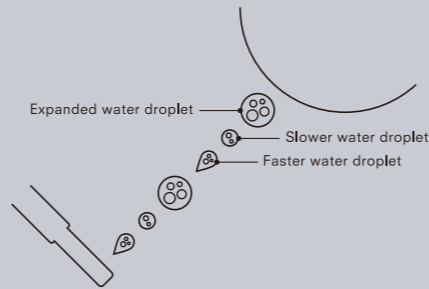

#### WIDE FRONT CLEANSING

Showers of small water droplets reach a wide area, ensuring a gentle sensation for sensitive skin.

# CLEANSING SPRAY PATTERNS

## HOW AIR-IN WONDER-WAVE WORK

As water is fired at different speeds, small droplets collide with larger ones, combing and expanding as the droplets fill with more air. The injection of air enlarges water droplet by around 30%

Rear Cleansing

Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use.

Rear Soft Cleansing

Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

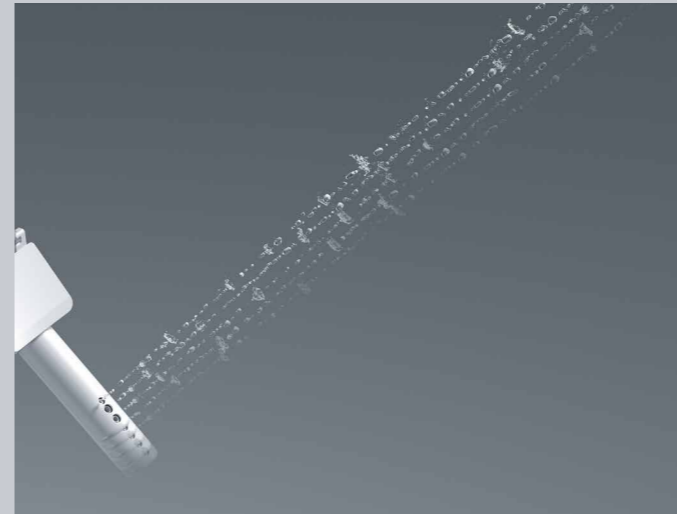

Front Cleansing

Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way

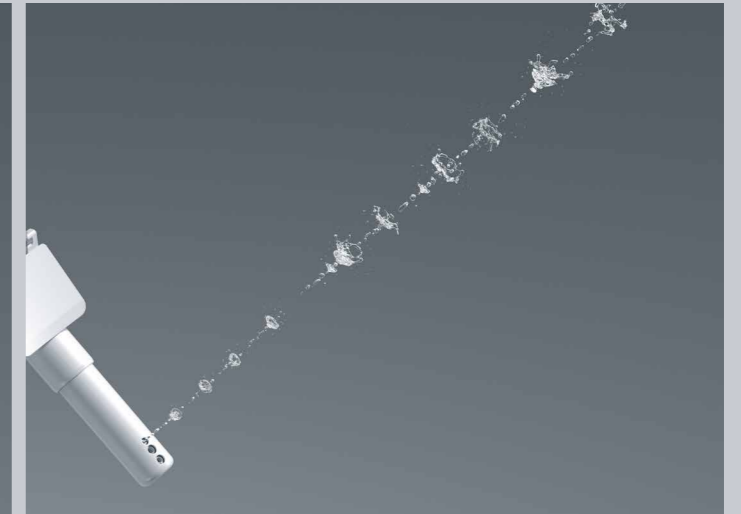

Wide Front Cleansing

Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

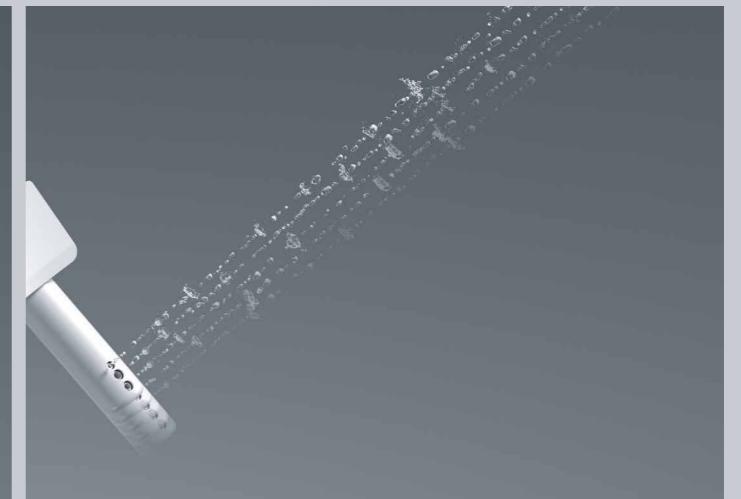

**Oscillating Cleansing**  
The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

**Pulsating Cleansing**  
Rhythmically pulsating stream of cleansing warm water.

**Wand Position Adjustment**  
You can easily set the wand position according to your preference.

**Wand Pressure Adjustment**  
Select from five levels of water pressure

# COMFORT TECHNOLOGY

Pursuing comfort to enrich everyday living  
for you and your loved ones

# COMFORT TECHNOLOGY

# COMFORT TECHNOLOGY

For greater performance and hygiene in the bathroom

## AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

## SOFT LIGHT

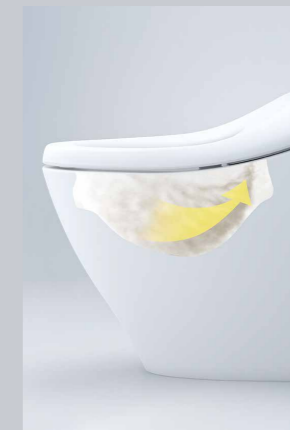

Subdued lighting switches on when the toilet is approached, so users don't have to be exposed to bright bathroom lights at night.

## HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

## DEODORIZER

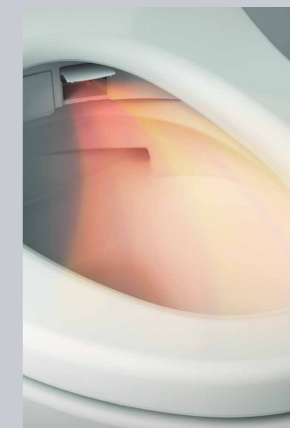

Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.

## AUTO FLUSH

No need to touch buttons or the handle and never worry about someone forgetting to flush — it's automatic after each use.

## WARM AIR DRYING

Enjoy the ease and comfort of the temperature-adjustable warm-air dryer.

# SUSTAINABILITY

Ultra-powerful water conservation.  
 Flushes waste completely  
 every time — no matter where  
 the toilet is located.

## HYBRID ECOLOGY SYSTEM

**HYBRID ECOLOGY SYSTEM** combines two innovative water streams—one from the plumbing system and one from a small tank inside the toilet—to maximize flushing efficiency. Using minimal water, **HYBRID ECOLOGY SYSTEM** is so effective at removing waste that a second flush is never required. What's more, the flushing power remains strong regardless of how high up in a building the toilet is located.

### CLEAN SYNERGY means eco-friendly

CLEAN SYNERGY technologies offer a sustainable way to maintain sanitary conditions inside your toilet. Since waste does not accumulate and create stains, there is less need for manual cleaning with detergents.

### Sustainable cleaning

WASHLET sprays the non-porous ceramic bowl with EWATER+, to help prevent the buildup of microscopic waste. Free of chemicals and cleaning agents, EWATER+ returns to the water cycle as pure H<sub>2</sub>O.

# WASHLET

Why wipe, when you wash?  
Discover the secret behind why you can't go back after  
using it once.

WASH NOT WIPE

## INSTANTLY WARMS THE WATER FOR YOUR PLEASANT FEEL AND CLEANLINESS

- 1) The "rich flow of water droplets containing air" creates a "strong and thorough" cleanse.
- 2) "Water is warmed instantly" to give you the "comfort of warm water anytime, for as long as you like."
- 3) Featuring "a clean design without a water tank."
- 4) It also "saves water and electricity."

# CLEANSING SPRAY PATTERNS

## Rear Cleansing

Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use

## Rear Soft Cleansing

Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

## Wide Cleansing

Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way

## Wide Front Cleansing

Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

## Oscillating Cleansing

The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

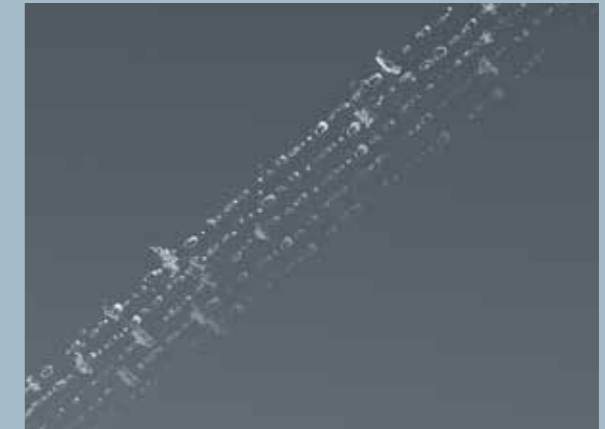

## Pulsating Cleansing

Rhythmically pulsating stream of cleansing warm water.

## Wand Position Adjustment

You can easily set the wand position according to your preference.

## Wand Pressure Adjustment

Select from five levels of water pressure

A variety of washing functions that cater to the convenience and mood of each individual

# WASHLET®+

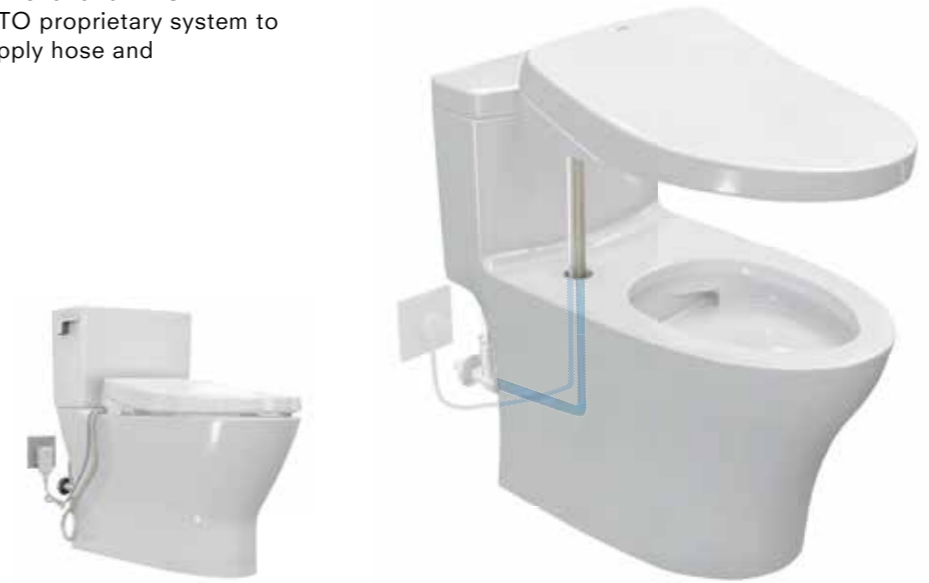

Series of WASHLET-and-toilet sets.  
New standard of comfort and cleanliness for daily life.

WASHLET+ is elegant. All connecting pipes and cords are hidden inside the smooth encasement. Even more than introducing a smarter sense of style to the bathroom, this design ensures easier cleaning and daily use. Various sets are available to choose from.

## Toilet and WASHLET combinations that are beautiful from any angle.

Making it possible to pursue beautiful design, WASHLET+ is a new series of toilet and WASHLET combinations that use a TOTO proprietary system to conceal WASHLET water supply hose and electrical cord inside.

The gap between toilet and WASHLET is minimized for better balance.

The simple, smooth shape of the toilet is easy to match with any space.

The clean line of the toilet bowl and lid creates a seamless design that fits any space.

**Before use**

**AUTO OPEN / CLOSE LID**

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

**SOFT LIGHT**

Subdued lighting switches on when the toilet is approached, so users do not have to disturb themselves at night with a bright bathroom light.

**While sitting**

**HEATED SEAT**

The moment you approach the toilet, the seat begins warming to a comfortable temperature.

**DEODORIZER**

Highly effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

**When Standing**

**AUTO FLUSH**

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

# WHAT IS EWATER+

EWATER+ is water containing hypochlorous acid that is used for cleaning and other purposes.

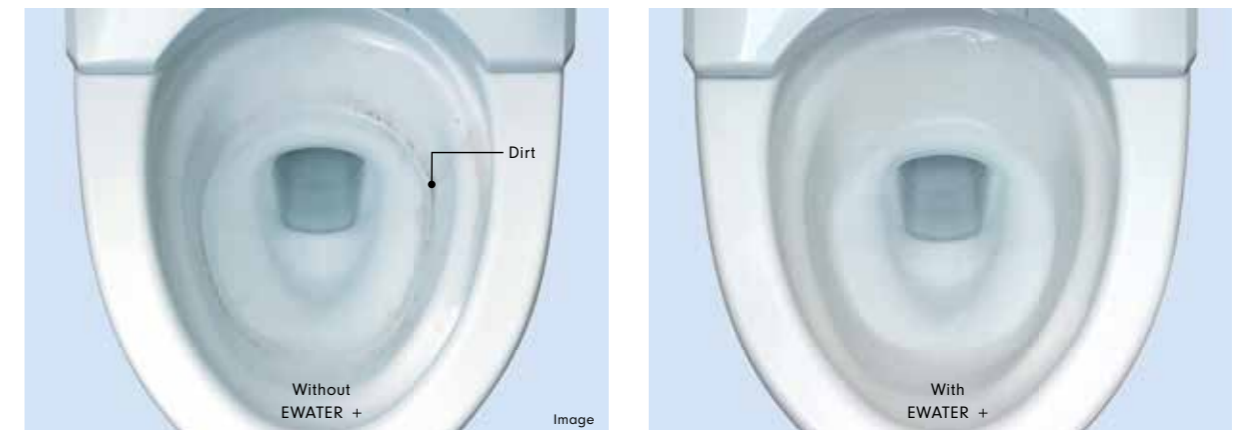

Hypochlorous acid is effective in suppressing the growth of bacteria.

Chloride ions contained in water are electrolyzed to create water that contains hypochlorous acid.

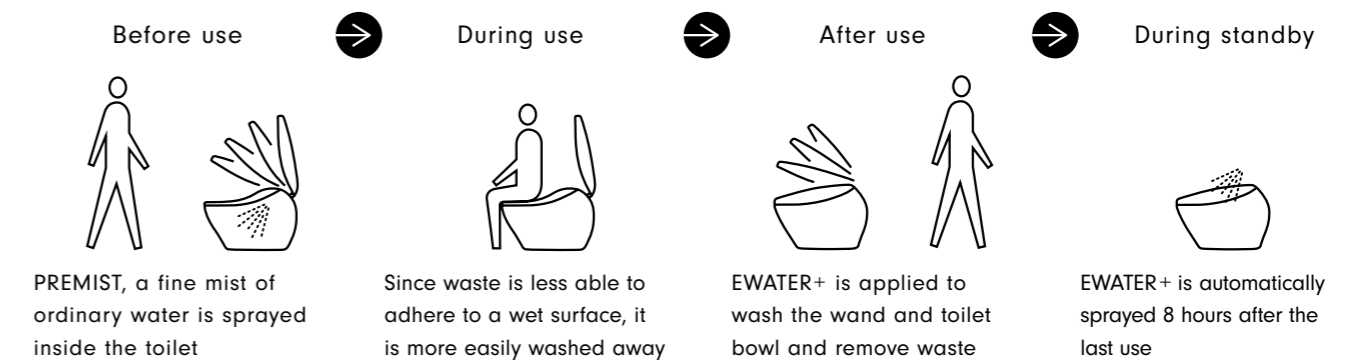

## SUPPRESSES the accumulation of Waste on BOWL

EWATER+ washes the wand and toilet bowl where waste tend to accumulate and produce stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic stains has no place to hide.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of toilets that receive no cleaning versus toilets that are self-cleaned with EWATER+. No additional cleaning was allowed. Survey period: One month (Feb. - Mar. 2017). Subjects: Families of four. \*Results vary according to usage and environmental conditions. All data collected by TOTO.

### How EWATER+ cleans

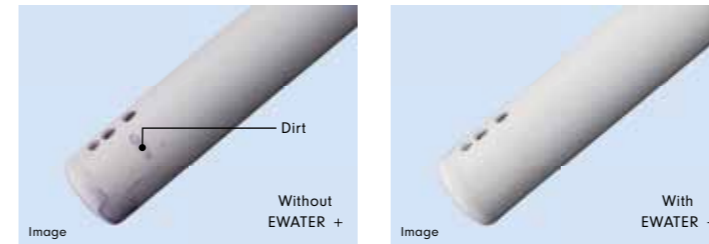

## SUPPRESSES the accumulation of Waste on WAND

Before and after each use, the wand automatically washes itself with EWATER+. This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically cleans itself to ensure constant hygienic conditions.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of wands self-cleaned with EWATER+ versus those that are not. No additional cleaning was allowed. Survey period: Two months (Sep. - Oct. 2017). Subjects: Families of four. \*Results vary according to usage, environmental conditions, and product type. All data collected by TOTO

### Antibacterial self-cleaning inside the mechanism, too

### Always Keeping Conditions Clean

Made of high-quality waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

### CLEAN MATERIAL

High-quality resin repels waste and dirt and resists staining, keeping surfaces clean.

**FORCES** Waste to **SLIDE DOWN**

**CEFIONTECT**  
CLEAN SYNERGY

**Ultra-smooth ceramic leaves nowhere for waste to cling.**

CEFIONTECT is an ultra-smooth ceramic glaze that coats the toilet bowl. Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

**SWIRLS** and **EJECTS** Waste Entirely

**TORNADO FLUSH**  
CLEAN SYNERGY

**360° cleaning power reaches every spot using less water.**

TORNADO FLUSH not only cleans more effectively, it does so quietly using less water. Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

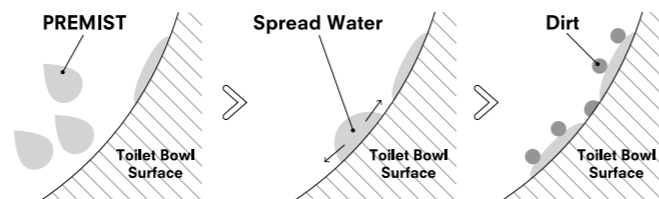

**PREVENTS** Waste from **CLINGING**

**PREMIST**  
CLEAN SYNERGY

**To ensure waste washes away easily, a film of water keeps waste from clinging to the toilet bowl.**

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

The RIMLESS design not only leaves no place for waste and germs to hide. It also makes for a much easier to clean toilet

## BENEFITS & TECHNOLOGIES

CLEANLINESS

CEFIONTECT

DESIGN

LINEARCERAM

Faucet / Lavatory  
Planning

**LINEARCERAM**

Exquisitely thin  
is the next dimension of beauty.

LINEARCERAM's accurate design harmonizes with any space. Sophisticated and inviting to use, LINEARCERAM is a new paradigm in bathroom aesthetics.

TOTO has developed a new material "LINEARCERAM" that is stronger than general fire clay by combining unique ingredients. This gave us more freedom of design and made a highly accurate design possible.

We created a cutting-edge design that is extremely thin, emphasizes its linear contours and smoothness.

**CEFIONTECT clean**

LINEARCERAM features TOTO's proprietary technology for preventing the adhesion of dirt and ensuring easy cleaning. CEFIONTECT has superior durability for long term use.

# BATHTUBS

# ZERO DIMENSION

## THE BRAIN IN A STATE OF TRANQUILITY

Immersed in the meditative moment  
of relaxation.

### THE POSTURE OF AN ASTRONAUT RESTING IN SPACE

ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

Research has shown that the ZERO DIMENSION bathing posture reduces activity in the part of the brain that houses the language function. This is the reason ZERO DIMENSION bathing feels calming and relaxing.

After more than a decade of research on body positioning, bathing and neurological relaxation, TOTO developed the Flotation Tub. Its design simulates zero gravity by offering bathers the experience of total weightlessness. By releasing the bather from the bonds of gravity to float in a tension-free state, deep muscle relaxation occurs that calms the body, mind and spirit, creating a sanctuary from the physical and mental fatigue that today's world brings.

# ADVANCED TECHNOLOGY ENCOURAGES RELAXATION

Exclusive features that make every bathing experience a luxurious occasion.

## NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

## CONTROLLER

The electrostatic controller is operated by the slightest touch.

## HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

## LED LIGHTING

In the outer perimeter of the tub's base, LED lighting supplies a dream-like ambience.

## AIR-JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

## RECLINE COMFORT

**Nestled in comfort, feel your body and mind release into a state of tranquility.**

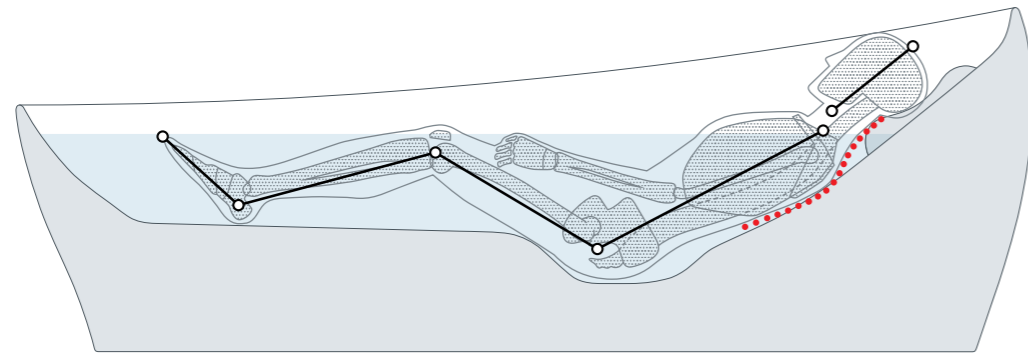

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

## Bathing position comparison

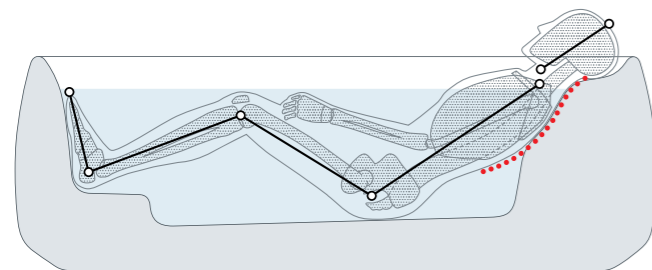

### ZERO DIMENSION

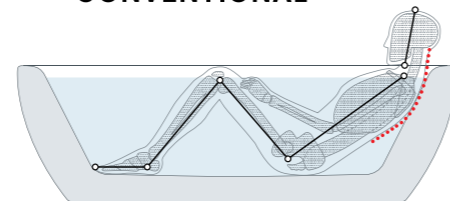

The posture of an astronaut resting in space ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

### RECLINE COMFORT

### CONVENTIONAL

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

In a conventional bathtub, the low water height and a rounded low back make complete relaxation difficult to attain. The shoulder and neck area do not receive warmth from soaking and the bathing position can feel tight and cramped.

### COLOR

You can choose between a high-gloss finish that looks like ceramics or a matte finish with a subdued texture.

## A VARIETY OF COLORS & FINISHES

Many colors and finishes to brighten up carefully designed spaces.

The colour which is finished due to PVD manufactured method added by layer on the surface, has both beauty and strength and it adds rich colour to the bathroom space.

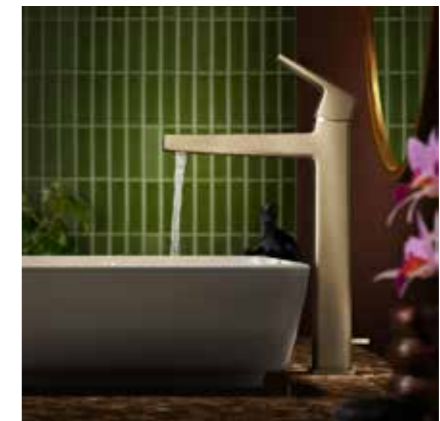

Polished Chrome

# ZA series

reddot award 2019  
winner

Lightness and dignity in a natural shape  
for a timeless design.

**S**harp edges, the beauty of  
generous curves, and the  
contrast of polished and hairline  
finishes combine in a modulated  
design that achieves balance of a  
different order. The handle, asym-  
metrically shaped like a small stone,  
is beautiful from any angle and set-  
tles in rhythmically.

# ZA series

An asymmetrical faucet handle and washbasin bowl in beautiful harmony

**W**ith the thinness of a flower petal, the organically shaped ZA series handle matches the delicate curve of the washbasin bowl in a way that suggests a breeze or a melody, further enhancing the appeal of the design for a fresher everyday in spaces that share its natural motif.

A precise, ultra-thin form delivers a tranquil, keenly framed beauty.

**T**he smooth, flat, mirror-like surface and ultra-thin edge generate a contrast in two dimensions whose overwhelmingly delicate look – made possibly by advanced processing technology – shares a design philosophy with the square-lined, sharp-edged washbasin bowl.

Enhancing flow and gesture,  
the design fits the sharp washbasin bowl.

**A** bundant water flows like a waterfall from the horizontal spout, while the handle can be operated gracefully with a gentle pinch of the fingers. Beautifying even the flow of water and human gestures, the design resonates with the sharp, square washbasin bowl to create a richer space.

The beauty of traditional craft in  
a characteristic sculptural form.

**T**he sharp, taut V-shaped edge that extends up to the end of the spout generates multi-sided reflections revealing a range of expressions. The polished gold finish further accentuates the distinctive design for a richer, more luxurious look that helps generate extraordinary, inspirational spaces.

FAUCET

The breadth and symbolism of classical design in a contemporary form.

**W**ith the composure of an elegant serif typeface and a base shaped to reconfigure the stability at the heart of traditional architecture, we pay homage to designs that have stood the test of time while transitioning to a modern design that reflects the present day.

The two-handle design captures the rich aesthetic of an elegant hotel.

**A**ligned along a straight line, the faucet and handles present a strikingly consistent design. The horizontal line crossing each base serves as a boundary that tightens the gaps between them. The low center of gravity adds a dignified accent to interior spaces without getting in the way.

FAUCET

Bold parallel arches  
and reflective curves in  
an assertive design.

**S**uggesting the majestic dignity of outstanding architecture, the shape combines – in the arch of its spout and a columnar body – elements seen in traditional shrine gates. Its imposing presence is further accentuated by the highlights that trace its edges.

The stately squareness and beveled edges imbue a space with dignity.

Following edges so gently beveled you'll want to draw your finger along them, the balanced highlights accentuate the shape of the gradually narrowing spout and the sleek silhouette of the whole.

the organic form leaves  
a graceful impression.

**W**ith a spout and handle that grow and a body defined by curves, the faucet suggests a plant bathed in sunlight, reaching higher and higher as it grows, with a soft, sculptural beauty that sustains both space and user.

FAUCET

The weight of a metal ingot cut at right angles tightens up a space.

The design contrasts found in this marriage between sharply honed edges and the gentle curves at the top of the spout and handle generates a regal air while further bolstering its imposing sculptural beauty.

FAUCET

A modern design wrapping a relaxed, unassuming shape.

Adding soft curves to a universal basic shape results in smart proportions that convey a gentle visual and textural impression in a timeless design suited for everyday use. Expanded color and finish options leave an even fresher impression.

Finishing color subject to availability. Please check with your local salesperson for more information.

Matte Black 

Stunning beauty and remarkable hardness from PVD

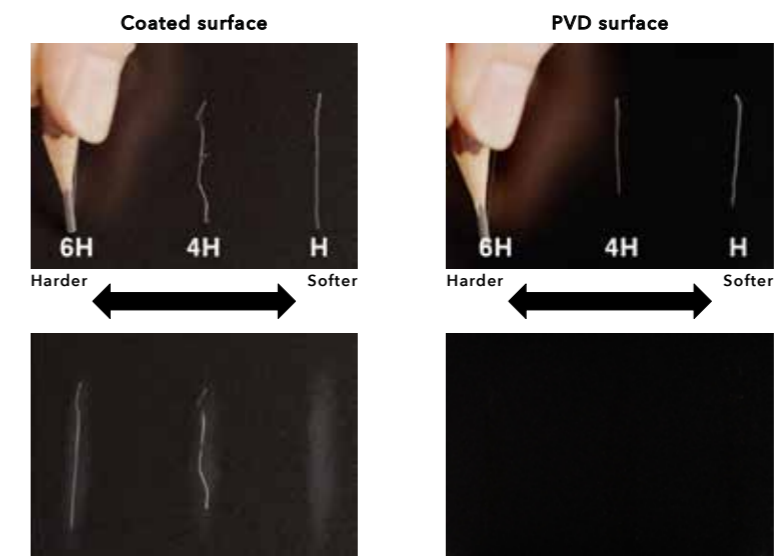

This stunning Matte Black finish adds sophistication and depth to our elegant faucet designs. Its silky sheen and delicate color gradation create a sense of luxury like no other.

Our "shot-blast processing" forms a chrome plating by physical vapor deposition (PVD) on faucet fixture surface irregularities. The result is a gorgeous Matte Black finish with a lustrous sheen and fine color nuances.

PVD finished surfaces are harder than coated surfaces.

Compared to coated products, PVD products are less prone to peeling or scratches that would reveal the base material on the surface.

Pencil testing for surface hardness

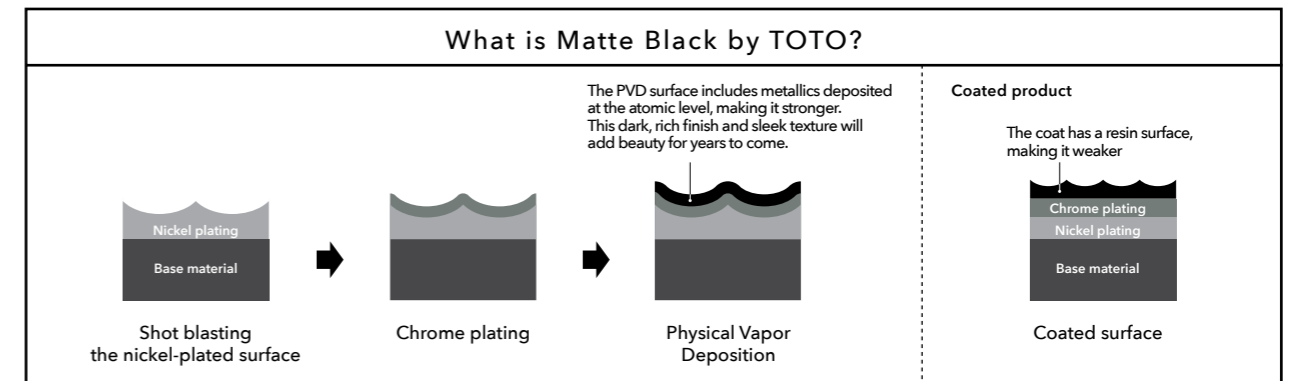

PVD Matte Black finish won't be scratched even with a hard pencil.

Test conditions:

Pencil testing (conformant with JIS K5600 5.4, ISO 15184, ASME D3363, and GB T6739) was performed on the coating/PVD in our test site.

What is Matte Black by TOTO?

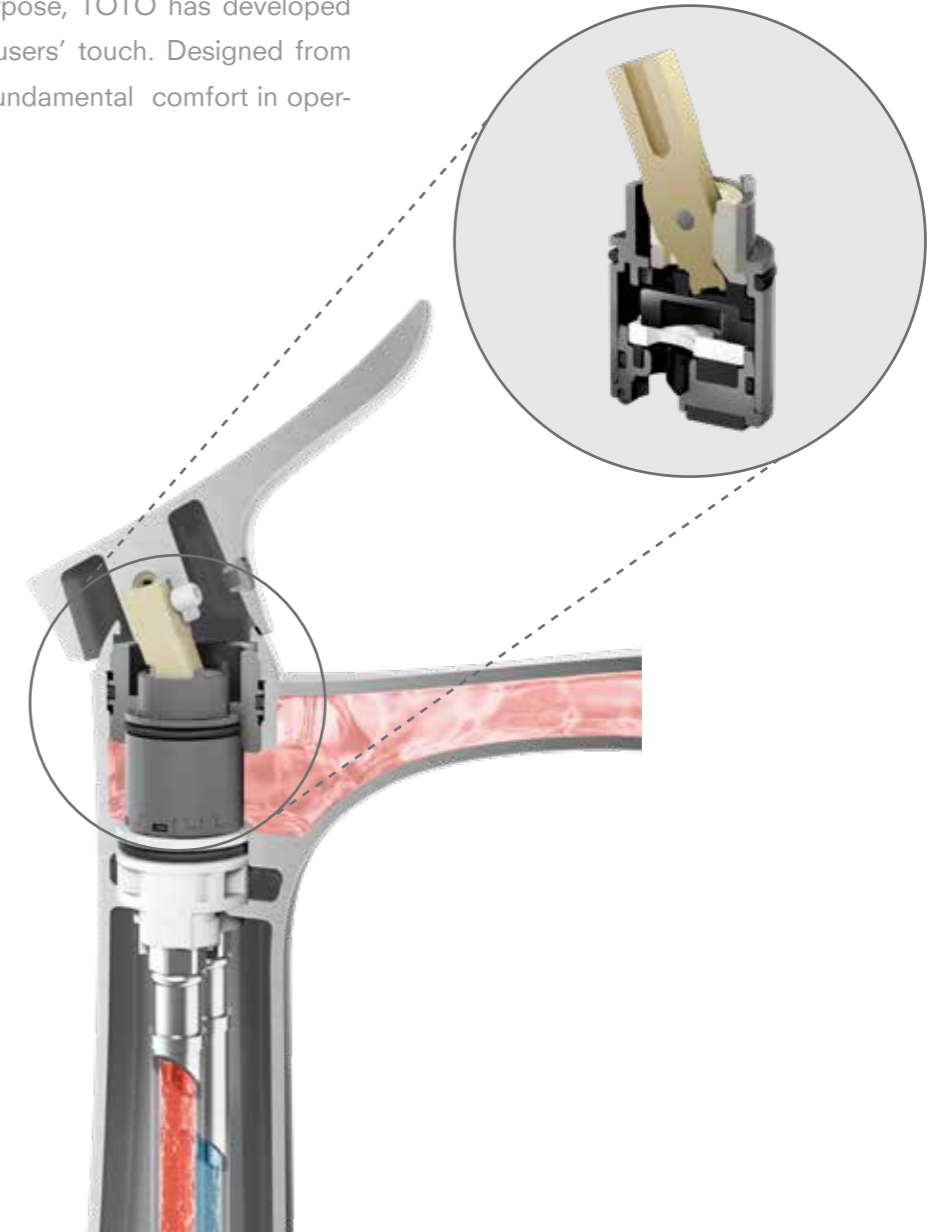

## Everyday ease-of-use that is grounded in the senses.

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on users' touch. Designed from the ground up to provide a fundamental comfort in operation.

### Special coating for prolonged comfort.

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

### Precise flow control, exclusive to TOTO.

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water. \*Adjustable flow functionality is not available on side-handle models.

## Safety for the entire family

When our children start bathing on their own, we cannot help but worry. Will the water suddenly become too hot? Or might they burn themselves on hot fixtures? TOTO's safety features alleviate any such concerns.

## SAFETY THERMO

Prevents rapid rises in temperature for a safer bath time.

A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

By comparison with the SINGLE product, SAFETY THERMO produces a smaller range of temperature fluctuation during bathing, even when the water pressure drops due to a toilet flushing.

## HEAT PROTECT

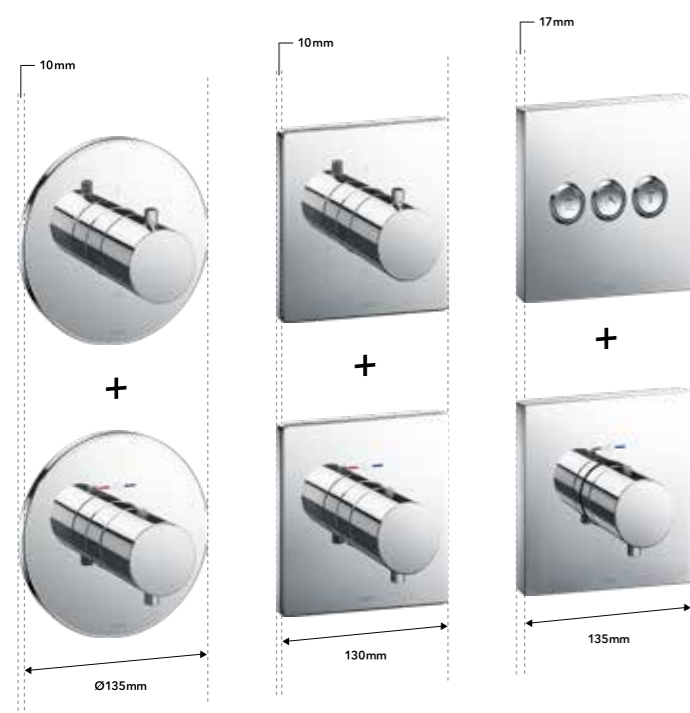

Prevents getting too hot and is beautifully shaped for a more pleasant daily bath time.

By covering the path of the hot water with a layer of cold, HEAT PROTECT is able to prevent burns when accidentally touching the fixtures.

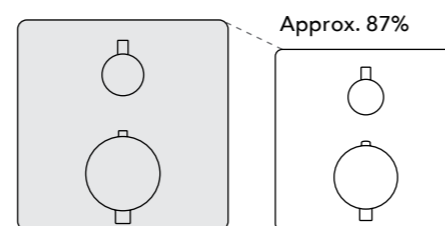

## Easy installation in any bathroom

One of the most compact, miniaturized units in the industry supports the advance features of this shower. This allows easy bathroom upgrades without over-burdening current bathroom structures.

### Industry-leading miniaturization. Beauty in balance.

We shrunk the unit to one of the industry's smallest. The trims are also some of the most compact. In addition, our progress towards uniform sizes mean units can be used simultaneously to create a beautiful space. We also strived to make the trim as thin as possible. A bathroom of unity and style can be yours.

## MINI UNIT

A compact unit offering freedom of choice for more beautiful bathrooms.

Concealed faucets liven up the bathroom. TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a single lever type, thermostat type or touch button type, and also make choices based on design features such as round or square fixtures

## MINI UNIT

TBN01001B

### Easier to install. Less load on the frame.

A high degree of flexibility when installing the MINI UNIT is one of its most attractive features. We were able to achieve one of the industry's smallest and lightest bodies for the concealed system. It puts only a minimal load on the architectural frames and has improved manageability during installation. In order to conceal the unit, the wall only needs to be 97mm, and the system is able to absorb installation error of ±13mm.

# Z Selection

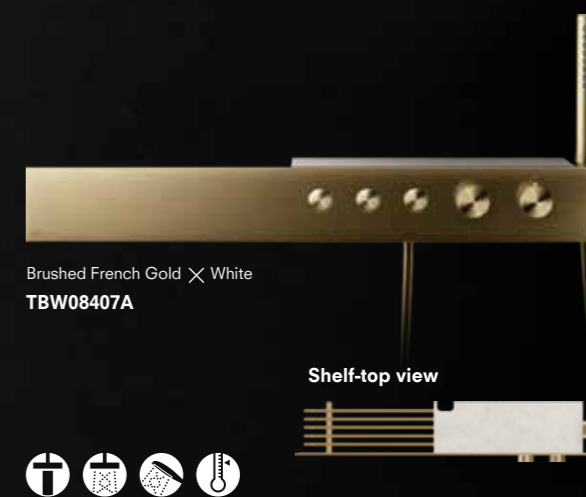

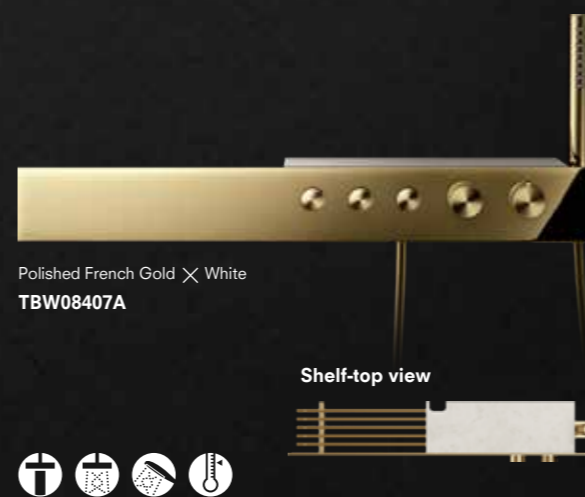

**Meticulous attention to design and function for an even richer shower.**

Stainless steel panels in a rich array of colors and finishes combine with artificial marble shelf-tops. The fine materiality resonates richly in the shower room, raising it to a higher level. Equipped with a rack that enables unobtrusive storage and an overhead shower that envelops the entire body for a rich shower time.

## A perfect showering experience with just one touch.

Choose your shower experience with a simple switch.

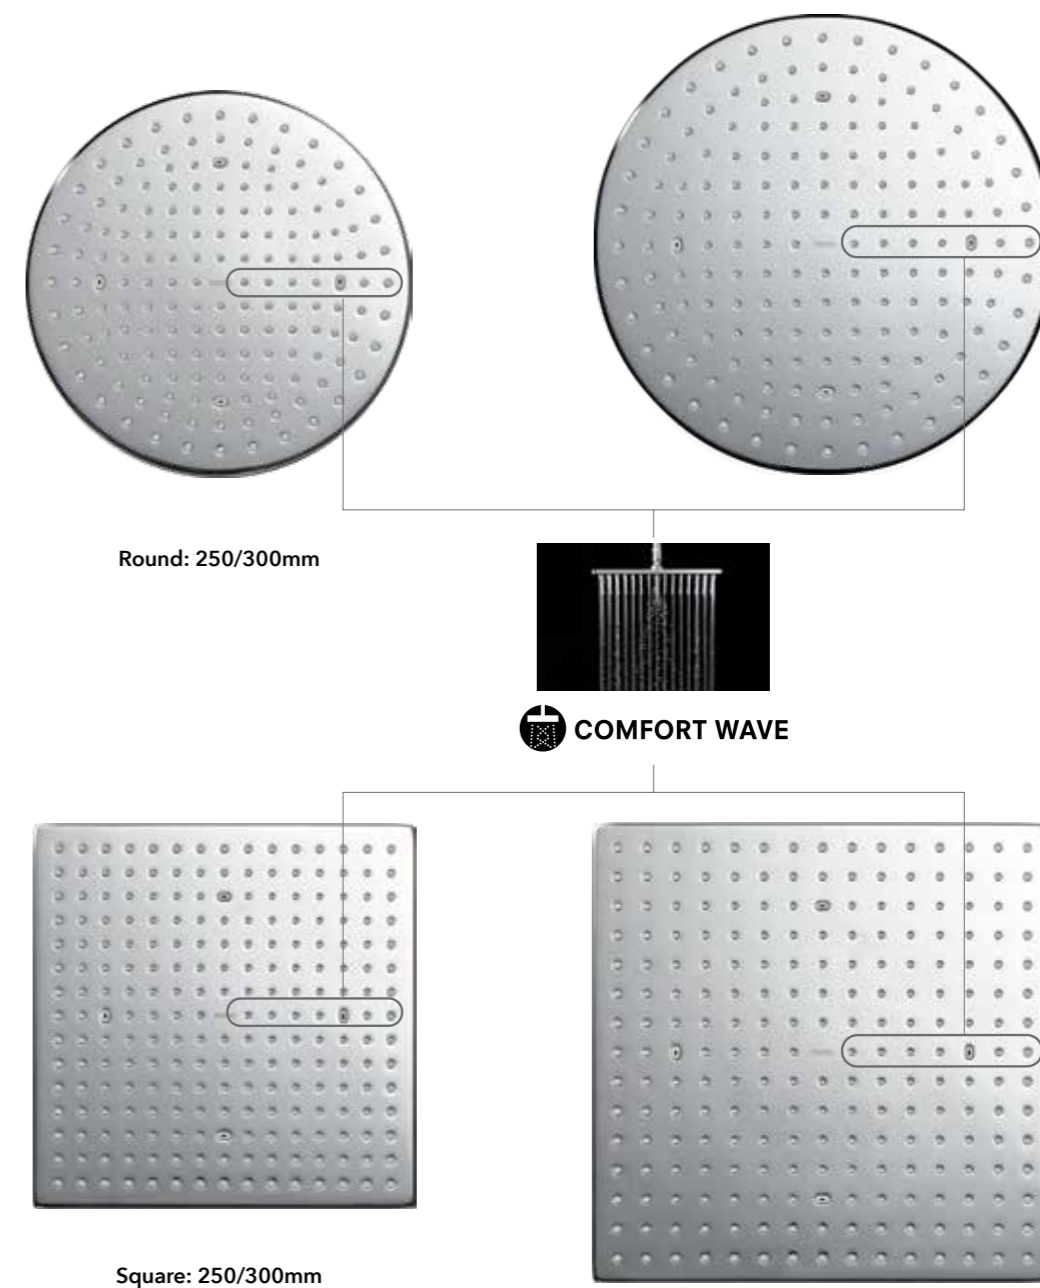

For the hand shower we installed a switch right at your fingertip, and for the over head shower the switch is located inside the showerhead. For the hand shower you can change easily between WARM SPA / COMFORT WAVE / ACTIVE WAVE, and for the over head shower between WARM SPA and COMFORT WAVE.

Feel free to enjoy the prefer shower for

## Intuitive operations make it easy to get the showering experience you want

The handheld shower is equipped with a lever that is easily operated with your thumb while you hold it. Moving this lever left or right changes the water discharge mode. The body shower provides two water discharge modes. It has a form that allows a comfortable grip, with water delivery switched by rotating the main body left or right.

Restrooms designed with people in mind.

# PUBLIC

A public restroom. It's not just where you "go to the toilet".  
It's also a place for freshening up, touching up makeup, and much more.  
For many years, our approach at TOTO has always been to put the user first.  
Offering products that combine unique technologies and sophisticated designs,  
TOTO proposes restrooms that anyone can use in comfort and with peace of mind.

## TOTO PUBLIC RESTROOMS

# CLEANLINESS

Touchless Technology

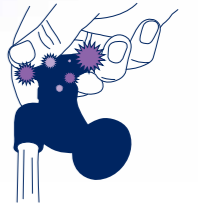

Protect your hands from infectious diseases.

### Touchless

Bacteria and viruses may be present on restroom fixtures used by large number of people. Touching the fixtures can transfer the bacteria or viruses to your hands. Our touchless faucets let you easily wash your hands without any need to touch the fixture.

From the time you enter a restroom until you leave, TOTO's touchless products perform every action necessary without direct physical contact.

With many people using the restrooms in train stations, shopping centers, schools, offices and other facilities, it is of utmost importance that public restrooms are sanitary. Plumbing fixtures should have functions that can reduce the spread of coronaviruses, influenza, noroviruses, and other infectious diseases which can have a serious impact on society. TOTO restroom fixtures are equipped with touchless functions that enable people to use the toilets, then wash and dry their hands without having to come into contact with the fixtures themselves. In addition to ensuring that restrooms can be used sanitarly and comfortably, the risk of spreading infectious diseases is greatly reduced. TOTO goes beyond merely 'sanitary' to achieve an extraordinarily high level of hygiene for restroom fixtures.

### Every action is performed hands-free.

# CLEANLINESS

Clean Technology

Making restrooms as sanitary as possible.

CLEAN SYNERGY combines the sanitary functions of a TOTO toilet and WASHLET to keep the toilet fresh and clean.

Advanced technologies to keep toilets fresh and clean.

Ever since TOTO was founded more than 100 years ago, we have been developing and manufacturing sanitary, hygienic ceramic products. TOTO products feature surfaces that are easy-to-clean, resist stains, and prevent adherence of waste. With this single-minded goal, TOTO has developed a long list of innovative technologies. Example include the extraordinarily smooth CEFIONTECT nano-technology glaze, which prevents waste matter from adhering, and TORNADO FLUSH, which delivers powerful flushing with minimal water, all so that everyone can comfortably use the restroom with peace of mind.

Advanced technologies combine to keep toilets fresh and clean.

CEFIONTECT

TORNADO FLUSH

EWATER+

# COMFORT

**A clean, comfortable restroom lifts people's spirits.**

A growing number of public restrooms have an area separated from the washing area where users can relax, freshen up and even touch up their makeup, reducing the need to crowd around the washbasins.

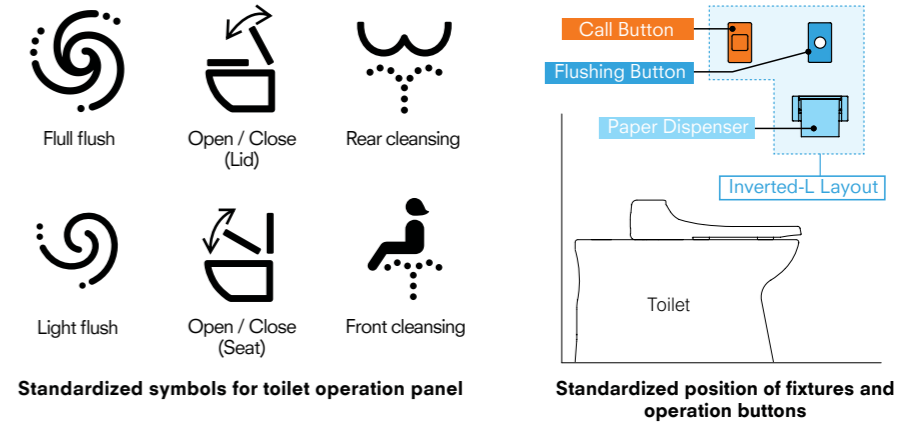

From a place where people just “go to the toilet” to a place where people can freshen up and relax.

One part of a restroom has recently undergone significant change: the washing area. Previously there may have been just a sink to wash your hands, but this area has now evolved into a place where people can place their bag and freshen up, or even sit down and take time to retouch their makeup. Keeping pace with this trend, TOTO offers not only fixtures, but also innovative proposals for comfortable, multifunctional lavatory spaces.

# UNIVERSAL DESIGN

Designing fixtures  
easy for everyone to use.

Standardized symbols for toilet operation panel

Standardized position of fixtures and operation buttons

TOTO was influential in the establishment of standardized graphical symbols for toilet operation units (ISO 7000) and standardization of accessible design, including the shape and color of the flushing and call buttons and their arrangement together with the paper dispenser on the walls of public restrooms (ISO 19026).

As a leading manufacturer of plumbing fixtures, TOTO strives to develop products featuring universal design and standardized specs.

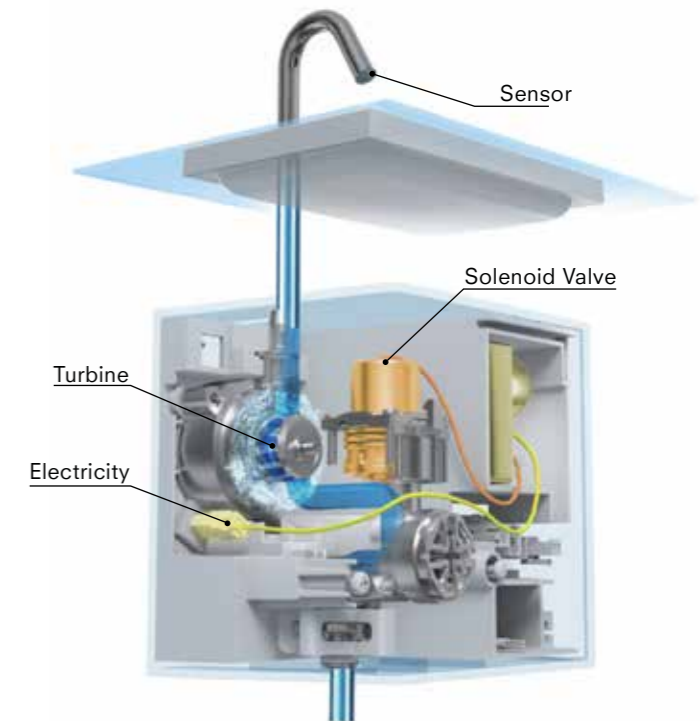

Public restrooms are used by many different people. TOTO places great importance on universal design to ensure that everyone can use restrooms with comfort and ease. TOTO's product development incorporates customer feedback and extensive study results on user needs and how products are used. Human body movement and physical effort are also scientifically analyzed. TOTO collaborates with experts to evaluate the ease of use of different fixtures and space layouts, and works to promote uniform industry standards. TOTO will continue to prioritize universal design to make restrooms easy to use for as many people as possible.

# EARTH-FRIENDLY

Restrooms in harmony with nature.

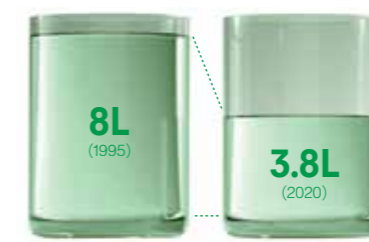

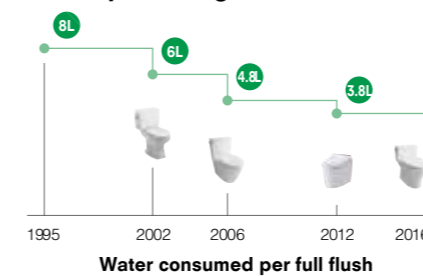

This ECOPOWER touchless faucet uses the flowing water to generate the electricity it needs to operate. There is no need for electrical wiring, making installation and renovation easier.

Features for enhanced water-saving and energy-saving without sacrificing comfort or convenience.

Reducing CO<sub>2</sub> emissions has become an issue of global importance, but how can public restrooms be made more earth-friendly? The answer is to minimize the amounts of water and electricity used. As a leading manufacturer of plumbing fixtures, TOTO has been working to reduce water and electricity consumption by our fixtures for many years. Today, TOTO's water-saving toilets use just 3.8 liters of water per flush, the world's highest standard of water-saving performance and about half the amount of water used by toilets in 1995. TOTO continues to develop fixtures that conserve water and electricity while maintaining comfort and convenience. One example is ECOPOWER touchless faucets, which use the flow water to generate electricity and ECO CAP, which mixes air with water so users can thoroughly wash their hands while using less water.

### Steadily reducing toilet water consumption

Reduced from 8 to 3.8 liters

ECO CAP

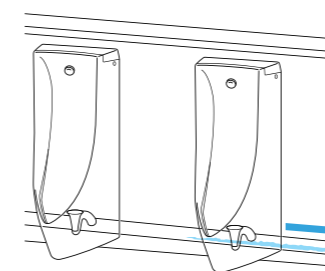

# SERVICEABILITY

Making servicing easier while enhancing user satisfaction.

Clean and sanitary even in places that can't be seen. Public restrooms that are easier to clean and service.

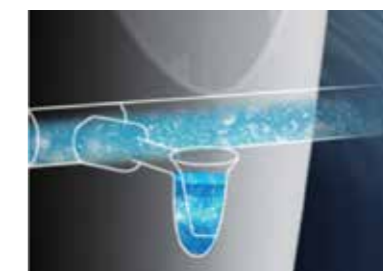

It is important to maintain a high level of comfort and convenience when considering ways to reduce the amount of work needed to clean and service a restroom. TOTO has developed a variety of innovations and technologies for keeping restrooms clean and sanitary and for suppressing the accumulation of waste, not only in visible areas but also in places hidden from sight such as the inside of pipes. Urinals are periodically flushed automatically when not in use, such as at night to keep drainpipes clean. Though innovations such as a compact urinal trap that efficiently replaces the water after use, and EWATER+ for preventing stains and odors, restrooms are kept sanitary while effectively conserving water.

#### Interval Flushing System

Automatically flushing after each use, the urinal also flushes periodically to prevent the buildup of urine scale in the drainpipe.

Wastewater containing a high volume of urine remains in the drainpipe even after flushing with each use.

EWATER+

# Unifying various hotel spaces with a discerning design.

Faucet fittings in public areas and guest rooms can be unified with the same design sense.\*  
From public to private spaces, you can use just the right faucet to coordinate spaces in the hotel.

\*Compatible series: GE, GC, GM

## GM series

A graceful arch design echoing traditional architecture presents an extraordinary space.

Touchless faucet (public area)

Handle faucet (private room)

## GE series

A sharp and beautiful design reminiscent of a Japanese sword asserts its presence in the area.

Touchless faucet (public area)

Handle faucet (private room)

## GC series

A transitional design that incorporates classical elements into simple forms, richly producing the stylistic beauty of a hotel

Touchless faucet (public area)

### ECOPOWER

This sensor-activated TOUCHLESS FAUCET generates its own electricity. ECOPOWER technology requires no external power source, has no minimum daily usage requirement, and is capable of generating its own power at the ultra-low flow water volume is only 2.0 L/min. ECOPOWER is environmentally sustainable.

### SOFT FLOW

Elegant streams of water from SOFT FLOW faucets gently touch skin. A premium calming experience. Soft and soothing. Sensor-operation eliminates the need for levers or buttons to touch, offering a new level of cleanliness for your health and wellbeing.

Applicable model: TLE21, TLE24

### ECO CAP

ECO CAP is an air-injection technology, which reduces water consumption. Aerating the water increases its volume, so you can wash your hands with full stream while using less water.

Applicable model: TLE20, TLE22, TLE25, TLE26, TLE27, TLE28, TLE29

# ZN series

Soft and calming to the touch, graceful water streams gently caress your hands.

## Functions and durability that prevent malfunction and troubles due to misuse or vandalism.

A wide variety of people utilize public spaces, from small children to adults, and misuse or vandalism can lead to malfunctions and other troubles. TOTO's automatic soap dispensers have functions and durability to minimize breakdowns and troubles, regardless of the circumstances.

### Designs that prevent liquid soap from getting on people.

Children sometimes play with automatic soap dispensers, and even adults may press against the spout, having confused them with push-type dispensers. We therefore designed our spouts with a groove so that when liquid soap is dispensed, if the tip is covered soap will squirt out toward the back, not in a way that will cause it to spray on the user.

### A spout structure designed for strength, difficult to break.

Assuming that strong forces might be applied to the spout tip, we inserted a pipe within the base for increased strength. Even if the spout is damaged, this prevents cracking and breaking at the base.

# TLE07 series

**TLK07001G**  
 Touchless Soap Dispenser

# URINAL & TOILET

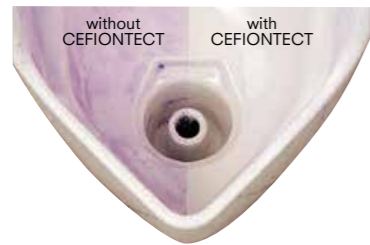

## Bringing a whole new level of hygiene with TOTO integrated urinal

### EWATER+

Integrated with EWATER+ that are electrolyzed water that will help to reduce waste and dirt. It helps to break down organic matters found on the urinal.

### CEFIONTECT

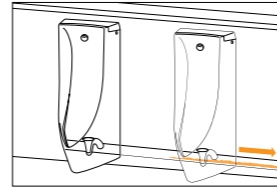

A super smooth ion barrier glazing on the urinal. Helps prevent stains event after a long term usage

#### SUPPRESSES bacteria growth in the trap of urinal

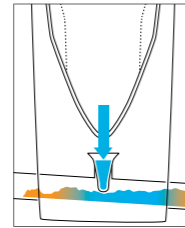

Regularly spray EWATER+ to effectively inhibit pollution in the trap area

#### Urinal Automatic Interval Flush

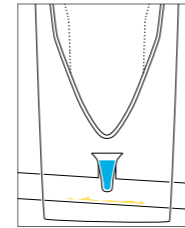

Every 2 hours, it will flush automatically

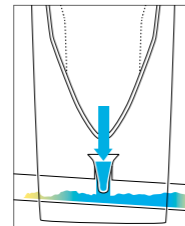

#### Schedule Flush

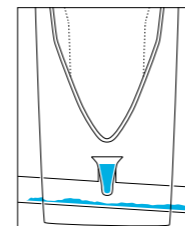

1) The first initial flush will clear the drain pipe to avoid any harden debris.

2) 1st Flush State

3) The second schedule flush will then further dilute the urine concentrate and make the pipe cleaner

4) 2nd Flush State

Urinary Concentrates Water

# Consistent Flushing Performance

Constant flow EFV Stabilizes flush volume even when water pressure fluctuates

## Design

- ① **Frameless Design**
- ② **Beautiful metallic finish**
- ③ **Sensor flush with the molding surface**
- ④ **Status light indicator**  
(Only TREF35 is outfitted with this feature.)
- ⑤ **Large push buttons usable by anyone**

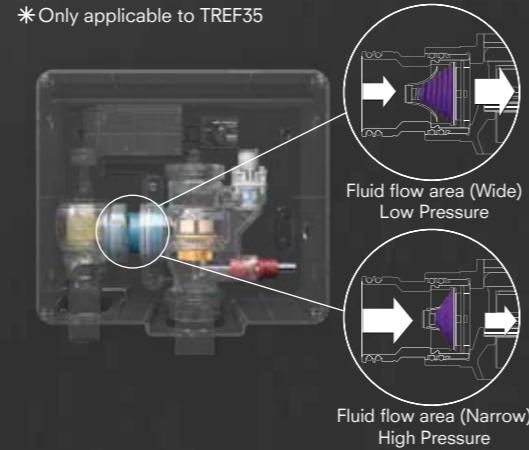

## Features

- ① **Quality**  
Protect against static electricity and prevent water penetration with PCB potting
- ② **Reliability**  
3 types of dust contamination filter  
- Solenoid Valve Filter  
- Piston Valve 360° Filter  
- Stop Valve Filter
- ③ **Ease of Installation**

## New Flushing Technology

When there are water pressure fluctuations, a spring contracts to maintain water volume and force at a constant level.

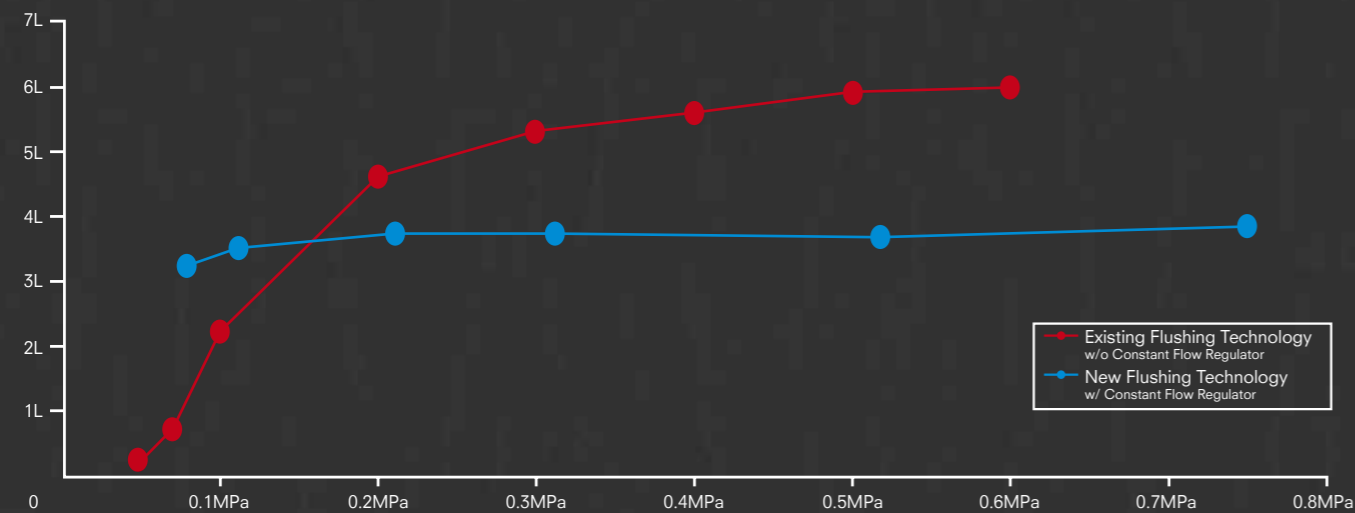

\* Only applicable to TREF35

Promote the contribution to the Environment Protection

In comparison with an paper dispenser installation, the hand dryer will not only reduce garbage disposal and also promote an environmental sustainability

Sleek and compact in design, this energy-efficient dryer is sensor activated with double-sided blowers for fast drying. Features side panels and bottom tray. Decibel rating of 57dB for comfortable use.

90 mm away from wall  
Length: 600 mm

**T112C5 V1**  
Length: 450 mm

**T112C5 V2**  
Length: 500 mm

**T112C6 V1**  
Length: 600 mm

**T112C8 V2**  
Length: 750 mm

**T112C8 V3**  
Length: 800 mm

Hand Rail  
Stainless Steel Coated with White PVC

65 mm away from wall

**T112C6 V2**

Hand Rail  
Stainless Steel Coated with White PVC

120 mm away from wall  
Length: 600 mm

**T112CL6N V1**

Hand Rail  
Corner Type  
Stainless Steel Coated with White PVC

65 mm away from wall  
Size: 1200L\*766W mm

**T113HK7R**

Toilet Hand Rail  
Flip Type  
Stainless Steel

Size: 700L\*150H mm

**T114HK7R#NW1**

Toilet Hand Rail  
Flip Type  
Stainless Steel + White PVC

Size: 700L\*150H mm

**T112H7RV1#NW1**

Toilet Hand Rail  
Flip Type  
Stainless Steel Coated with White PVC

Size: 700L\*160H mm

**GYHR86MR**  
Right Rail

Hand Rail  
L Type  
Stainless Steel

**GYHR86ML**  
Left Rail

65 mm away from wall  
Size: 800L\*600W mm

**GT114CL9#NW1**  
Size: 700L\*700W mm  
90 mm away from wall

Multi-purpose Hand Rail  
L Type  
Stainless Steel + White PVC

**T114CL10R#NW1**  
Size: 700L\*700W mm  
120mm away from wall

**T114CL9R**

Hand Rail  
L Type  
Stainless Steel + White PVC

90 mm away from wall  
Size: 700H\*700W mm

**T112CL1N V1**  
Left Rail

Hand Rail  
L Type  
Stainless Steel Coated with White PVC

**T112CR1N V1**  
Right Rail

65 mm away from wall  
Size: 750H\*800W mm
